

Zenfone™ **2** Laser

ZE601KL **User Guide**

Care and safety

Guidelines

Road safety comes first. We strongly recommend not to use your device when driving or operating any type of vehicle.

This device should only be used in environments with ambient temperatures between 5°C (41°F) and 35°C (95°F).

Turn off your device in restricted areas where the use of mobile devices is prohibited. Always obey rules and regulations when in restricted areas, such as, in aircraft, movie theater, in hospitals or near medical equipment, near gas or fuel, construction sites, blasting sites and other areas.

Use only AC adapters and cables approved by ASUS for use with this device. Refer to the rating label on the bottom of your device and ensure that your power adapter complies with this rating.

Do not use damaged power cables, accessories, and other peripherals with your device.

Keep your device dry. Do not use or expose your device near liquids, rain, or moisture.

You can put your device through x-ray machines (such as those used in conveyor belts for airport security), but do not expose the device to magnetic detectors and wands.

The device screen is made of glass. If the glass gets broken, stop using the device and do not touch the broken glass parts. Immediately send device for repair to ASUS-qualified service personnel.

Do not listen at high volume levels for long periods to prevent possible hearing damage.

Disconnect the AC power before cleaning your device. Use only a clean cellulose sponge or chamois cloth when cleaning your device screen.

Send device for repair to ASUS-qualified service personnel only.

Proper disposal

Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.

DO NOT throw the battery in municipal waste. The symbol of the crossed out wheeled bin indicates that the battery should not be placed in municipal waste.

DO NOT throw this product in municipal waste. This product has been designed to enable proper reuse of parts and recycling. The symbol of the crossed out wheeled bin indicates that the product (electrical, electronic equipment and mercury-containing button cell battery) should not be placed in municipal waste. Check local regulations for disposal of electronic products.

DO NOT throw this product in fire. DO NOT short circuit the contacts. DO NOT disassemble this product.

Welcome!

Explore the intuitive simplicity of ASUS Zen UI 2.0!

ASUS Zen UI 2.0 is a charming and intuitive interface exclusively for ASUS Phones. It provides you with special apps, which are integrated in or with other apps, to fit your unique individual needs and make your life easier while letting you have fun with your ASUS Phone.

ASUS Support

Find answers from FAQs (Frequently Asked Questions) or provide your feedbacks in the user forum.

Camera

With PixelMaster technology, capture those precious moments in vivid and high-quality photos and videos.

Do It Later

Get hold and act on your important emails, SMS messages, interesting websites, or other important tasks when it is more convenient for you to do so.

What's Next

View meeting details, emails, and other event alerts or notifications at a glance right from your Home screen, Lock Screen, or What's Next app.

ZenLink

Get maximum productivity from ZenLink, which comprises of Remote Link, Share Link, and PC Link apps. Use any of these apps to connect with other devices for sharing and receiving files.

NOTE: Availability of the ZenLink apps vary with ASUS Phone models.

NOTE: Availability of ASUS Zen UI 2.0 apps vary per region and ASUS Phone model. Tap  from your Home screen to check the apps available on your ASUS Phone.

Get your ASUS Phone ready!

Parts and features

Take a hold of your device and have it running in a jiffy.

NOTES:

- Remove the rear cover to display the dual micro SIM and microSD card slots.
 - The micro SIM card slot supports LTE, WCDMA, and GSM/EDGE network bands.
- The microSD card slot supports microSD and microSDHC card formats.
-

IMPORTANT!

- We do not recommend using a screen protector as it can interfere with the proximity sensor. If you want to use a screen protector, ensure that it does not block the proximity sensor.
 - Keep the device, particularly the touch screen, dry all the time. Water or other liquids can cause the touch screen to malfunction.
 - Ensure that the Micro-SIM/memory card compartment cover is always closed when operating or carrying the device.
-

Installing a micro-SIM card

A micro-subscriber identity module (micro-SIM) card stores information, such as your mobile phone number, contacts, messages and other data that gives you access to a mobile network.

Your ASUS Phone comes with two micro-SIM card slots that allows you to setup and use two mobile network services without having to carry two mobile devices at the same time.

CAUTION!

- This device is designed for use with a mobile carrier-approved micro-SIM card only.
 - We do not recommend the use of trimmed SIM cards in the micro-SIM card slot.
 - Turn off your device before inserting a micro-SIM card.
 - Be extra careful when handling a micro-SIM card. ASUS is not responsible for any loss or damage incurred to your micro-SIM card.
 - Do not insert a memory card into the micro-SIM card slot! If a memory card happens to be inserted into the micro-SIM slot, send your device to an ASUS-qualified service personnel.
-

To install a micro-SIM card:

1. Turn off your device.
2. Locate the groove on the bottom-right corner.

CAUTION! Be careful when you pry open the cover.

3. Pry the cover loose and then pull the rear cover off.

CAUTION! Be careful when you pry open the cover.

WARNING!

- **DO NOT** use tools like screwdrivers to remove the rear cover.
 - **DO NOT** pry the micro USB port
-

4. Remove the battery.

5. Insert the micro SIM card into one of the micro SIM card slots.

NOTE: The micro SIM card slot 1 is at the lower part of the micro SIM/ microSD combo card slot.

IMPORTANT! Both micro SIM card slots support 3G WCDMA/ 4G LTE network band. But only one micro SIM card can connect to 3G WCDMA/ 4G LTE service at a time.

CAUTION! Do not use sharp tools or solvent on your device to avoid scratches on it.

Removing a Micro-SIM card

CAUTION: Be extra careful when handling a micro-SIM card. ASUS is not responsible for any loss or damage incurred to your micro-SIM card.

To remove a micro-SIM card:

1. Turn off your device.
2. Locate the groove on the bottom-right corner.

CAUTION! Be careful when you pry open the cover.

3. Pry the cover loose and then pull the rear cover off.

CAUTION! Be careful when you pry open the cover.

WARNING!

- **DO NOT** use tools like screwdrivers to remove the rear cover.
 - **DO NOT** pry the micro USB port.
-

4. Remove the battery.

5. Remove the micro-SIM card from the micro-SIM card slot.

NOTE: The micro SIM card slot 1 is at the lower part of the micro SIM/ microSD combo card slot.

6. Put the rear cover back in place.

Installing a memory card

Your ASUS Phone supports a microSD™ and microSDHC™ memory card with up to 128 GB capacity.

NOTE: Some memory cards may not be compatible with your ASUS Phone. Ensure that you use only compatible memory cards to prevent loss of data, damage to your device or memory card, or both.

CAUTION!

- Be extra careful when handling a memory card. ASUS is not responsible for any data loss or damage incurred to your memory card.
 - Do not insert a micro-SIM card into the memory card slot! If a micro-SIM card happens to be inserted into the memory card slot, bring your device to an ASUS-qualified service personnel.
-

To install a memory card:

1. Turn off your device.
2. Locate the groove on the bottom-right corner.

CAUTION! Be careful when you pry open the cover.

3. Pry the cover loose and then pull the rear cover off.

CAUTION! Be careful when you pry open the cover.

WARNING!

- **DO NOT** use tools like screwdrivers to remove the rear cover.
 - **DO NOT** pry the micro USB port.
-

4. Remove the battery.

5. Insert the microSD card into microSD card slot.

NOTE: The microSD card slot is at the upper part of the micro SIM/ microSD combo card slot.

6. Put the rear cover back in place.

CAUTION! Do not use sharp tools or solvent on your device to protect it from scratches.

Removing a memory card

CAUTION!

- Be extra careful when handling a memory card. ASUS is not responsible for any data loss or damage incurred to your memory card.
- Eject the memory card properly to safely remove it from device. To eject the memory card, go to **Home > All Apps > Settings > Storage > Unmount external storage**.

To remove a memory card:

1. Turn off your device.
2. Locate the groove on the bottom-right corner.

CAUTION! Be careful when you pry open the cover.

3. Pry the cover loose and then pull the rear cover off.

CAUTION! Be careful when you pry open the cover.

WARNING!

- **DO NOT** use tools like screwdrivers to remove the rear cover.
- **DO NOT** pry the micro USB port.

4. Remove the battery.

5. Remove the microSD card from the microSD card slot.

NOTE: The microSD card slot is at the upper part of the micro SIM/ microSD combo card slot.

6. Put the rear cover back in place.

CAUTION! Do not use sharp tools or solvent on your device to protect it from scratches.

Charging your ASUS Phone

Your ASUS Phone comes partially charged but you must charge it fully before using it for the first time. Read the following important notices and cautions before charging your device.

IMPORTANT!

- Use only the bundled AC power adapter and micro-USB cable to charge your ASUS Phone. Using a different AC power adapter and cable may damage your device.
 - Peel off the protective film on the AC power adapter and micro-USB cable before using it with your device.
 - Ensure to plug the AC power adapter to a compatible power outlet. You can plug the AC power adapter to any compatible 100~240 V outlet.
 - The output voltage of the AC power adapter for this device is +5V $\overline{=}$ 2A, 10W.
 - When using your ASUS Phone while plugged-in to a power outlet, the power outlet must be near your device and easily accessible.
 - To conserve electricity, unplug the AC power adapter from the power outlet when not in use.
 - Do not place heavy objects on top of your ASUS Phone.
-

CAUTION!

- While charging, your ASUS Phone can become warm. This is normal, however, if your device becomes unusually hot, disconnect the micro-USB cable from your device and send the device, including the AC power adapter and cable to an ASUS-qualified service personnel.
 - To prevent any damage to your ASUS Phone, AC adapter, or micro-USB cable. Ensure that the micro-USB cable, AC adapter, and your device are connected properly before charging.
-

To charge your ASUS Phone:

1. Connect the micro USB cable to the power adapter.
2. Connect the micro USB cable to your ASUS Phone.
3. Plug the AC power adapter to a grounded power outlet.

IMPORTANT!

- When using your ASUS Phone while it is plugged to a power outlet, the grounded power outlet must be near to the unit and easily accessible.
- When charging your ASUS Phone through your computer, ensure that you plug the micro USB cable to your computer's USB 2.0 / USB 3.0 port.
- Avoid charging your ASUS Phone in an environment with ambient temperature of above 35°C (95°F).
- Charge your ASUS Phone for eight (8) hours before using it in battery mode for the first time.
- The status of battery charge is indicated by the following icons:

**NOTES:**

- Use only the power adapter that came with your device. Using a different power adapter may damage your device.
 - Using the bundled power adapter and ASUS Phone signal cable to connect your ASUS Phone to a power outlet is the best way to charge your ASUS Phone.
 - The input voltage range between the wall outlet and this adapter is AC 100V - 240V. The output voltage of the device is +5V=2A, 10W.
-

4. When fully-charged, disconnect the USB cable from your ASUS Phone first before unplugging the AC power adapter from the power outlet.
-

NOTES:

- You can use your device while charging but it may take longer to fully charge the device.
 - Charging your device via USB port of a computer may take longer to fully charge the device.
 - If your computer does not provide enough power for charging via USB port, charge your ASUS Phone using the AC power adapter plugged to a power outlet instead.
-

Turning your ASUS Phone on or off

Turning your device on

To turn your device on, press and hold the power button until your device vibrates and starts up.

Turning your device off

To turn your device off:

1. If your screen is turned off, press the power button to turn it on. If your screen is locked, unlock the device screen.
2. Press and hold the power button, then when prompted, tap **Power off** then tap **OK**.

Sleep mode

To put your device in sleep mode, press the power button once until the screen turns off.

Starting for the first time

When you turn your ASUS Phone on for the first time, Setup Wizard will guide you through the setup process. Follow the onscreen instructions to select your language, select input methods, set up your mobile network and Wi-Fi, sync accounts, and configure your location services.

You can also transfer your data, such as your contacts and other relevant info, from your old mobile device to your ASUS Phone via the Data Transfer app.

NOTE: You can use the Data Transfer app any time at your convenience. From the **Home screen** tap  > **Data Transfer**. For more details, see [Data Transfer](#).

Use your Google or ASUS account to set up your device, if you do not have a Google or ASUS account yet, go ahead and create one.

Google Account

Using a Google Account allows you to fully utilize these Android OS features:

- Organize and see all your information from anywhere.
- Automatically backup all your data.
- Leverage Google services conveniently from anywhere.

ASUS Account

Having an ASUS Account gets you to enjoy the following perks:

- Personalized ASUS support service and warranty extension for registered products.
- Free 5 GB of Cloud storage space.
- Receive the latest device and firmware updates.

NOTE: You can also use the Setup Wizard to reconfigure your device, any time at your convenience. From the Home screen tap  > **Setup Wizard**.

Battery power conservation tips

The battery charge is the lifeline of your ASUS Phone. Here are some battery power conservation tips that help preserve the power of your ASUS Phone battery.

- Close all running apps that are not in use.
- When not in use, press the power button to put the device in sleep mode.
- Activate Smart Saving in Power Saver app.
- Set audio to Smart Mode.
- Decrease brightness of display.
- Keep the speaker volume to a low level.
- Disable Wi-Fi feature.
- Disable Bluetooth feature.
- Disable the screen auto-rotate feature.
- Disable all auto-sync features in your device.

Using the touchscreen

Use these gestures on the touchscreen to launch apps, access some settings, and navigate your ASUS Phone.

Launching apps or selecting items

Do any of the following:

- To launch an app, simply tap on it.
- To select an item such as in File Manager app, simply tap on it.

Moving or deleting items

Do any of the following:

- To move an app or widget, tap and hold then drag it to the location where you want it to be.
- To delete an app or widget from the Home screen, tap and hold then drag it up to **Remove**.

Moving through pages or screens

Do any of the following:

- Swipe your finger to the left or to the right to switch between screens or to flip through a Gallery of images.
- Scroll your finger up or down to go through web pages or list of items.

Zooming in

Spread apart your two fingers on the touch panel to zoom in an image in Gallery or Maps, or zoom in a web page.

Zooming out

Bring together your two fingers on the touch panel to zoom out an image in Gallery or Maps, or zoom out of a web page.

NOTE: You may not be able to zoom in/out of some web pages as these pages may have been designed specifically to fit your mobile screen.

There's no place like Home

2

Zen Home features

Home screen

Get reminders of important events, app and system updates, weather forecasts, and text messages from people who really matter to you, right from your Home screen.

Swipe the Home screen to the left or right to display the extended Home screen.

NOTE: To add more pages to your Home screen, see [Extended Home screen](#).

Understanding notification icons

These icons are shown on the status bar and will guide you of the current status of your ASUS Phone.

	Mobile network Shows the signal strength of your mobile network.
	Micro SIM card 1 Shows that a micro SIM card is inserted in micro SIM card slot 1.
	Micro SIM card 2 Shows that a micro SIM card is inserted in micro SIM card slot 2. NOTE: If the SIM card icon is displayed in green, it indicates that it is set as the preferred network.
	Messages Shows that you have an unread message.
	Wi-Fi Shows the signal strength of your Wi-Fi connection.
	Battery life Shows the battery status of your ASUS Phone.
	MicroSD card Shows that a microSD card is inserted in your ASUS Phone.
	Screenshots Shows that you took screenshots of your ASUS Phone.
	Airplane mode Shows that your ASUS Phone is on Airplane mode.
	Wi-Fi Hotspot Shows that Wi-Fi hotspot of your ASUS Phone is enabled.
	Smart Saving mode Shows that Smart Saving mode is enabled. NOTE: For more details, see Power Saver .
	Mute mode Shows that Mute mode is enabled.
	Vibrate mode Shows that Vibrate mode is enabled.
	Download status Shows the download status of an app or file.

Quick settings

The Quick settings panel provides a one-tap access to some of the wireless features and settings of your ASUS Phone. Each of these features are represented by a button.

To launch the Quick settings panel, swipe down twice from the upper right corner of your ASUS Phone.

NOTE: A blue button indicates that the feature is currently enabled while a gray button indicates a disabled feature. The green buttons refer to individual utilities that you can quickly access via the Quick Settings Notification Panel.

Adding or removing buttons

To add or remove existing buttons from the ASUS Quick Settings notification panel:

1. Launch Quick settings then tap .
2. Tap the box beside the feature to add or remove it from the ASUS Quick Setting Notification Panel.

NOTE: A checked box indicates that the feature's button is accessible via the ASUS Quick Settings Notification Panel while an unchecked box means the opposite.

3. Tap  to go back and view the current ASUS Quick Settings notification panel.

System notifications

From System notifications, you can see the latest updates done and system changes made on your ASUS Phone. Most of these changes are data and system-related.

To launch the System notifications panel, swipe down from the upper left corner of your ASUS Phone.

Personalizing your Home screen

Stamp your own personality on your Home screen. Select an attractive design as your wallpaper, add shortcuts for quick access to your favorite apps, and add widgets for a quick review of important info. You can also add more pages so you can add and quickly access or view more apps or widgets on your Home screen.

App & Widgets

App shortcuts make it easier to quickly-access your often-used or favorite apps from your Home screen. You can add, remove, or group your apps into one folder.

You can put widgets, which are small dynamic apps, on your Home screen. Widgets provide you with quick-views of the weather forecast, calendar events information, battery status, and more.

Adding app shortcuts or widgets

To add an app shortcut or a widget:

1. Tap and hold an empty area on your Home screen and select **Apps & Widgets**.
2. From the All Apps list or the Widgets screen, tap and hold an app or a widget, then drag it to an empty area on your Home screen.

Removing app shortcuts or widgets

From your Home screen, tap and hold an app or widget, then drag it to **Remove** on top of your screen. The app that you've removed from your Home screen will remain in the All Apps screen.

Grouping your app shortcuts in a folder

Create folders to organize your app shortcuts on your Home screen.

1. On your Home screen, tap and drag an app onto another app and a folder will appear with an automatically assigned name.
2. If you want to change the folder name, tap the folder and tap the folder name to assign a new name to this folder.

Wallpapers

Let your apps, icons, and other Zen elements sit on an attractively designed wallpaper. You may add a translucent background tint to your wallpaper for readability and clarity. You can also select an animated wallpaper to make your screen come alive.

Applying wallpaper and background tint

To apply wallpaper and background tint:

1. Tap and hold an empty area on your Home screen and select **Wallpapers**.
2. Select where you want your wallpaper: on your **Home screen**, **Lock screen**, or **Home screen and lock screen**. If you do not want to add a background tint to your wallpaper, skip to step 5.
3. Tick **Background tint**, then adjust the transparency level.
4. Tap  then select a color.
5. Select a wallpaper, then tap **Apply**.

NOTE: Apply a background tint to your **Home screen**, or **Home screen and lock screen**.

Applying an animated wallpaper

To apply an animated wallpaper:

1. Tap and hold an empty area on your Home screen and select **Wallpapers**.
2. Select where you want your wallpaper: on your **Home screen**, or **Home Screen and lock screen**.
3. Select an animated wallpaper, then tap **Apply**.

NOTE: You can also set up your wallpaper settings from  > **Settings** > **Display**.

Extended Home screen

Extending your Home screen

You can add more pages to extend your Home screen and put more app shortcuts and widgets on it.

1. Tap and hold an empty area on your Home screen and select **Edit pages**.
2. Tap  to add a new page. If you wish to delete an extended Home screen, select then drag and drop it into .

Easy Mode

Navigate your ASUS Phone better with Easy Mode, an intuitive interface with large icons, buttons, and font size for better readability and easier user experience. You can also quickly do your core tasks such as making calls, sending messages, and more in Easy Mode.

Enabling Easy Mode

To enable Easy Mode:

1. Launch the Settings screen by doing any of the following:
 - Launch Quick settings then tap .
 - Tap  > **Settings**.
2. Scroll down the **Settings** screen and select **Easy Mode**.
3. Slide Easy Mode to **ON**.

Adding shortcuts

In Easy Mode, you can add up to thirty-six (36) app shortcuts on the Home screen.

1. Swipe to the right of the Home screen, then tap **+**.
2. From the All apps screen, select the app that you want to add to the list.

Removing shortcuts

Do the following:

1. Tap  .
2. Select the app or apps that you want to remove from the list, then tap **Delete**.

Adding contacts

In Easy Mode, you can add your frequently contacts on the Home screen.

1. Swipe to the left of the Home screen, then tap  .
2. From the Contacts screen, select the contact that you want to add to the list.

Removing contacts

Do the following:

1. Swipe to the left of the Home screen, then tap **Edit contacts**.
2. Select the contact or contacts that you want to remove from the list, then tap **Delete**.

Disabling Easy Mode

To disable Easy Mode:

1. Swipe down from the top of your screen then tap  .
2. Select **Easy Mode** from the **Settings** screen.
3. Slide Easy Mode to **OFF**.

Setting up the date and time

By default, the date and time displayed on your Home screen automatically syncs with your mobile provider's settings.

To change the date and time settings:

1. Launch the Settings screen by doing any of the following:
 - Launch Quick settings then tap .
 - Tap  > **Settings**.
2. Scroll down the Settings screen and select **Date & time**.
3. Deselect **Automatic date & time** and **Automatic time zone**.
4. Select the time zone and manually set the date and time.
5. You can opt to use the 24-hour format, if you prefer.
6. Select the date format that you want to display.

NOTE: See also [Clock](#).

Setting up your ringtone and alert sounds

Set up the sound for your phone ringtone, notifications such as text messages, emails, and event alerts. You can also choose to enable or disable the dial pad touch tones, touch sounds, screen lock sound, or you can choose to have your ASUS Phone vibrate when you tap on it.

To set up the sound settings:

1. Launch the Settings screen by doing any of the following:
 - Launch Quick settings then tap .
 - Tap  > **Settings**.
2. Scroll down the Settings screen and select **Sound & notification**.
3. Set up your preferred sound settings.

Lock Screen

By default, the lock screen appears after turning on your device and while waking it up from sleep mode. From the lock screen, you can proceed to your device's Android® system by swiping on your touch screen panel.

Your device's lock screen can also be customized to regulate access to your mobile data and apps.

Customizing your lock screen

If you want to change your lock screen settings from the default **Swipe** option, refer to the following steps:

1. Launch Quick settings then tap .
2. Scroll down the **Settings** screen and select **Lock screen**.

3. In the next screen, tap **Screen lock**.

4. Tap the screen lock option you would like to use.

NOTE: For more details, see [Securing your ASUS Phone](#).

Customizing the quick access buttons

By default, your lock screen includes quick access buttons for these apps: Phone, Messaging, and Camera. Change this default settings and customize these buttons to launch other apps on the lock screen using the following steps:

1. Launch Quick settings then tap .
2. Scroll down the **Settings** screen and select **Lock screen**.
3. Under **Display**, slide the bar from **OFF** to **ON** beside **Customized quick access** to enable this feature.
4. Under the **Customized quick access** screen, select which button you would like to customize.

5. Tap the app you would like to preset on the quick access button you chose to configure.

NOTE: Scroll up or down to view the current list of apps you can preset.

6. Hold and drag a quick access button to rearrange its order.

Work hard, play harder

3

Browser

Your browser's state-of-the-art Chromium-based engine lets you surf the Internet at a fast loading speed. Its clean and intuitive Zen interface powered by text-reflow technology optimizes web contents to better fit the screen of your ASUS Phone. With its magazine view mode via its Smart Reader feature, you can pleasurablely read your favorite web contents online or offline without any distracting items such as banner ads. You can also mark an interesting page as a read later task, which you can retrieve from the Do It Later app and read at your convenient pace.

IMPORTANT! Before doing any Internet surfing or Internet-related activities, ensure that your ASUS Phone is connected to a Wi-Fi or mobile network. For more details, see [Staying connected](#).

Launching the Browser app

From your Home screen, do any of the following to launch the Browser app:

- Tap .
- Tap  > **Browser**.

Sharing pages

Share interesting pages from your ASUS Phone to others via an email account, cloud storage account, Bluetooth, or other ASUS Phone apps.

1. Launch the browser.
2. From a web page, tap  > **Share link**.
3. Tap the account or app that you want to use as medium in sharing the page.

Reading the pages later

When there's an interesting piece of information online yet you don't currently have the time to read it, you can mark it as a read later task. You can retrieve and read this page at a convenient time from the Do It Later app.

1. To mark as a read later task, do any of the following:
 - From the page, tap  > **Read later**.
 - Tap  on the bottom of the page.
2. To retrieve the page, tap **ASUS** > **Do It Later** from the Home screen.

NOTE: For details on browsing read-later pages, see [Catching up on my online reading now](#).

Adding a new tab

Hide the current website and open a new window to continue surfing or browsing another website.

1. From the current page, tap  > **New tab**.
2. Enter the URL address in the URL field and continue enjoying browsing the Internet from your ASUS Phone.
3. If you want to do add another tab, follow step 1 again.

NOTES:

- Opening many websites in your browser slows down its loading performance.
 - If Internet connection slows down, try clearing the cache. For details, refer to the section [Clearing the browser cache](#).
-

Bookmarking pages

Bookmark your favorite pages or websites so you can go back and browse them again.

To bookmark a page:

From the page, tap  > **Save to bookmarks**. The next time you open your browser, you can quickly tap on your bookmarked page.

Smartly read online

Your ASUS Phone automatically enables the Smart Reader Mode on pages that contain a lot of items that you may find unnecessary or distracting such as banner ads, icons, or menu items. You can remove these items and read only the main contents of the page.

NOTE: Smart Reader Mode supports Wikipedia, CNN, ESPN, BCC, and NY Times sites.

To use the Smart Reader Mode:

- Tap the Smart Reader Mode icon  to automatically remove any unnecessary or distracting items and show only the main contents of the page.
- From the Smart Reader Mode page, do any of the following:
 - Tap  to show your Reader's List or saved pages.
 - Tap  to launch the Marker tool and select your preferred color, then swipe over the text that you want to highlight.
 - Bring two fingers together or spread them apart to zoom in/out of a page.

Clearing the browser cache

Clear the browser cache to delete temporary Internet files, websites, and cookies that are temporarily stored in your ASUS Phone. This helps improve the loading performance of your browser.

1. Launch the browser.
2. Tap  > **Settings** > **Privacy & security** > **Clear cache**.
3. Click **OK** on the confirmation message.

Email

Add Exchange, Gmail, Yahoo! Mail, Outlook.com, POP3/IMAP accounts so you can receive, create, and browse emails right from your device. You can also sync your email contacts from these accounts to your ASUS Phone.

IMPORTANT! Your ASUS Phone must be connected to a Wi-Fi or mobile network so you can add an email account or send and receive emails from added accounts. For more details, see [Staying connected](#).

Setting up email accounts

Set up your existing personal or work email account so you can receive, read, and send emails from your ASUS Phone.

1. From the Home screen, tap **Email** to launch the Email app.
2. Tap the mail provider you want to set up.
3. Key in your email address and password and tap **Next**.

NOTE: Wait while your device automatically checks your incoming and outgoing mail server settings.

4. Configure the **Account settings** such as inbox checking frequency, sync days, or notification for incoming emails. When done, tap **Next**.
5. Key in an account name that you want to be displayed in the outgoing messages, then tap **Next** to log into your inbox.

NOTE: If you want to set up your work account on your ASUS Phone, ask for the email settings from your network administrator.

Adding email accounts

If you don't have an existing email account, you can create one so you can receive, read, and send emails right from your ASUS Phone.

1. From the Home screen, tap **Email** to launch the Email app.
2. Tap  > **Settings**, then add an email account.
3. Tap the mail provider that you want to add.
4. Follow the succeeding instructions to complete setting up your new email account.

NOTE: You may also refer to steps 3 to 5 in the [Setting up email accounts](#) section to complete this setup process.

Setting up a Gmail account

Set up your Gmail account to get into Google-related services and apps as well as receive, send, and browse emails right from your ASUS Phone.

1. Tap **Google** then tap **Gmail**.
2. Tap **Existing** and key in your existing Gmail account and password, then tap .

NOTES:

- Tap **New** if you do not own a Google account.
 - When signing in, you have to wait while your device communicates with Google servers to setup your account.
-

3. Use your Google account to backup and restore your settings and data. Tap  to sign in to your Gmail account.

IMPORTANT! If you have several email accounts aside from Gmail, use Email app to set up and access all your email accounts.

Emailing invites to events

You can email invites to an event right from your ASUS Phone as well as set an alert notice for the event.

1. From the Home screen, tap **Email**.
2. Tap  > **Meeting invitation**.
3. In the **Event name** field, enter the name of the event.
4. In the **Location** field, enter the street, town/city/province, country, and zip/postal code of the venue for the event.
5. Turn Countdown to **ON**. You'll get a countdown notice on the System notifications panel as to the days left until this event takes place.

NOTE: For details on the System notifications panel, see [System notifications](#).

6. On the **Reminders** field, select the time that you want to get an alert or reminder about the event.

NOTE: You'll get an event alert as your What's Next activity. For more details, see [What's Next](#).

7. Tap the **Guests** field and select the contacts you want to send the invites to.
8. Once finished, tap  to save and exit.

NOTE: You can also email invites from the Calendar app. For details, see [Creating events](#).

Emailing later

When you receive an email, you can set it as email later task and you can reply to this email at a more convenient time from the Do It Later app.

1. From the Home screen, tap **Email**.
2. Select the email that you want to email later from your inbox.
3. Tap  > **Reply Later**.
4. To retrieve the email, tap **Asus** > **Do It Later** from the Home screen.

NOTE: For details on answering your reply-later emails, see [Emailing now](#).

Calendar

The Calendar app enables you to keep track of important events using your ASUS Phone. Along with creating events you may also set reminders, or create a countdown notice to ensure you don't forget these important occasions. It also stores the events, such as birthdays and anniversaries, that you've set up for your VIP contacts.

Creating events

To create an event:

1. Tap **ASUS > Calendar**.
2. Tap  to start creating a new event.
3. In the New event screen, input all the necessary details of your event.
4. Turn Countdown to **ON**. You'll get a countdown notice on the System notifications panel as to the days left until this event takes place.

NOTE: For details on the System notifications panel, see [System notifications](#).

5. On the **Reminders** field, select the time that you want to get an alert or reminder about the event.
6. Once finished, tap  to save and exit.

Adding accounts to Calendar

Aside from creating an event logged on your ASUS Phone, you can also use Calendar to create events that get automatically synced with your online accounts. But first, these accounts must be added to Calendar using the following steps:

1. Tap **ASUS > Calendar**.
2. Tap  > **Accounts** > .
3. Tap the account you want to add.
4. Follow the succeeding onscreen instructions to complete adding the new account to Calendar.

Creating an event from your account

After adding online accounts that you would like to sync with Calendar, you may now use your ASUS Phone to create notifications for those online accounts by following these steps:

1. Tap **ASUS > Calendar**.
2. Tap  to start creating a new event.
3. In the New event screen, tap **My Calendar** to view all the accounts currently synced with the Calendar.
4. Tap the account where you would like to create a new event.
5. In the New event screen, input all the necessary details of your event.

NOTE: Your online account must already be added to Calendar before you can proceed with the following steps. For more details, see [Adding accounts to Calendar](#).

Enabling alert reminders for events

Turn on the alert function from the Calendar app to get alert reminders and notifications for special events such as birthdays, anniversaries, meetings, and other important events that matter you.

1. Tap **ASUS > Calendar**.
2. Tap  > **Accounts**.
3. Tap the accounts from which you want to receive alert reminders from.

NOTES:

- For details on setting up event alerts about your VIPs, see [Adding an event to a VIP contact](#).
 - Get alerts or reminders as your [What's Next](#).
-

What's Next

Do not miss out on important events, having fun out in the sun, or getting messages/emails/calls from your VIP contacts. Set up your calendar of events, VIP groups, or weather update settings to get alerts and reminders of What's Next. View your What's Next alerts from What's Next widget or app.

Launch the What's Next app:

- Tap  > **What's Next**.

Getting event reminders

To get your What's Next event reminders and notifications, ensure the following:

- Set up your VIPs' events info such as birthdays or anniversaries on the Contacts app. For details, see [Adding an event to a VIP contact](#).
- You can email invites to an event and set the reminder time in the Email app. For details, see [Emailing invites to events](#).
- You can set up an event and set the reminder time in the Calendar app. For details, see [Creating events](#).

Accepting or declining invites to events

Set up your email account in the Email app to send or receive emails such as invites to events. When you accept email invites, the events will be synced with the Calendar app.

NOTE: For more details, see [Email](#) and [Calendar](#).

IMPORTANT! Your ASUS Phone must be connected to a Wi-Fi or mobile network to get emailed invites or event-related alerts. For more details, see [Staying connected](#).

To accept or decline an invite:

1. Tap your email invite to open it.
2. Tap **Yes** to accept or **No** to decline the invite. Your reply will be emailed to the event organizer or host.

Getting event-related alerts

When you accept an invitation to an event, you'll get reminders of any changes to the event such as postponement, cancellation, change in event location, or shift in event schedule. These event-related alerts will be posted on What's Next widget or app.

Start event alert

A few minutes before the event, you'll get a reminder that the event is about to start. You can call to give the organizer or host a heads up if you're running late.

Cancelled event alert

You'll get a cancellation alert when the organizer or host cancels the event.

Rescheduled event alert

You'll get an alert if the event has been postponed, rescheduled, or moved to another location.

Getting the weather updates

Get real-time AccuWeather® updates, every hour or up to 12 hours, for your current location or for other parts of the world. You can make plans for up to seven (7) days with the 7-day weather forecast or dress appropriately based on AccuWeather RealFeel® temperature. You can also get the real-time UV index or air pollution index, letting you take the necessary protective measures against harmful ultra-violet rays or air pollutants.

1. Before getting the weather updates, ensure the following:

- Wi-Fi or mobile network is turned on.
- Turn on the location access from **Settings > Location**.

2. Launch the Weather app in any of these two ways:

- Tap **Settings > Weather**.
- From your ASUS Phone's home screen, tap the weather icon.

3. Tap **Settings > Edit** then tap **+**.

4. In the search box, enter the city or area whose weather updates you want search for.

5. Wait for a while your ASUS Phone gets the weather information. The city or area's weather data will be added to your location list. Tap the city's or area's weather data that you want to display on the What's Next widget on the Home screen.

Do It Later

Get hold of even the most trivial things in your busy life. Even when you're too busy, reply to your emails, SMS messages, calls, read news online, or add other important to-do tasks at your convenience.

Mark your unread messages or emails, interesting web pages, and missed calls as **Reply Later**, **Read Later**, or **Call Later** items. These marked items will be added to your Do It Later tasks, and you can act on these tasks at a convenient time.

NOTES:

- Popular third-party apps that support Do It Later include Google Maps, Google Chrome, Google Play, YouTube, and IMDb.
 - Not all apps can share and add tasks to Do It Later.
-

Adding to-do tasks

Create important to-do tasks to organize your work or social activities in your professional or social life.

1. From the Home screen, tap **ASUS > Do It Later**.
2. Tap **+** then fill in the necessary information.
3. If you want to set the importance level, select **High** in the Importance field.
4. When you're done, tap **OK**.

Prioritizing to-do tasks

Set the importance level of your to-do tasks so you can prioritize and act on them accordingly.

1. From the Home screen, tap **ASUS > Do It Later**.
2. Tap the task that you want to set as a top priority.
3. Under the Importance field in the task screen, select High.
4. When you're done, tap **OK**.

NOTE: High-priority to-do tasks are marked as  on your Do It Later list. This allows you to quickly determine which to-do tasks need immediate actions.

Calling back now

When you've previously set an important call as a call later task, you can retrieve it and call back when you've got the time to do so from the Do It Later app.

1. From the Home screen, tap **ASUS > Do It Later**.
2. Select the call that you want to call back, then tap **Call now**.
3. When you're done, tap  to mark the task as completed.

NOTE: For details on setting calls as call later tasks, see:

- [Setting callbacks for incoming calls](#)
 - [Setting callbacks for missed calls](#)
-

Emailing now

You can mark an email as a reply later task and reply to it at a later time from the Do It Later app.

1. From the Home screen, tap **ASUS > Do It Later**.
2. Select the email that you want to reply now, then tap **Reply now**.
3. When you're done, tap  to mark the task as completed.

NOTE: For details on setting your emails as reply later tasks, see [Emailing later](#).

Catching up on my online reading now

You can retrieve pages that you've previously marked as read later tasks and catch up on your online reading at your convenience from the Do It Later app.

1. From the Home screen, tap **ASUS > Do It Later**.
2. Select the page or pages that you want to read now, then tap **Read now**.
3. When you're done, tap  to mark the task as completed.

NOTE: For details on setting pages as read later tasks, see [Reading the pages later](#).

Replying now

When you've previously set an SMS message as a reply later task, you can retrieve it and reply to the message when it's convenient from the Do It Later app.

1. From the Home screen, tap **ASUS > Do It Later**.
2. Select the SMS message that you want to send a reply to, then tap **Reply now**.
3. When you're done, tap  to mark the task as completed.

NOTE: For details on setting pages as reply later tasks, see [Messaging later](#).

Deleting to-do tasks

You can delete any completed, overdue, or unnecessary to-do tasks from the Do It Later app.

1. From the Home screen, tap **ASUS > Do It Later**.
2. Swipe the task you want to remove from the list to the left/right.

SuperNote

Turn note-taking into a fun and creative activity that syncs with your mobile data using Supernote.

This intuitive app allows you to create notes organized per notebook by directly writing or drawing on the touchscreen. While creating notes, you can also add multimedia files from other apps and share them via social networks or your Cloud storage account.

Understanding icons

Depending on your selected input mode, these icons appear as you take down your notes on SuperNote.

	Select this type mode when you want to use the onscreen keyboard to enter your notes.
	Select this write mode when you want to scribble or write your notes.
	Select this draw mode when you want to create drawings or doodles.
	When in write or type mode, tap this icon to select text weight and color.
	When in draw mode, tap this icon to select the drawing tool to use, and the stroke color or size.
	When in draw mode, tap this icon to erase some contents in your notes.
	Tap this icon to take a photo or video, record audio, add timestamp and more to your notes.
	Tap this icon to add a new page to your notebook.

Creating a notebook

To create new files using Supernote, refer to the following steps:

1. Tap **ASUS** > **SuperNote**, then tap .
2. Name the file and select **Pad** or **Phone** as the page size.
3. Select a template and start writing your notes.

Sharing a notebook on the Cloud

You may share your notebook on the Cloud using the following steps:

1. On the Supernote home screen, tap-and-hold the notebook you would like to share.
2. In the pop-up screen, tap **Enable cloud sync**.
3. Input your ASUS WebStorage account's User name and Password details to proceed with syncing your notebook to the Cloud.
4. Once the notebook has been successfully synced to the Cloud, the Cloud icon appears on top of the shared notebook.

Sharing a note to the Cloud

Aside from your notebook, you may also share individual notes from your Supernote to your Cloud storage account. To do this:

1. Launch the notebook that contains the note you want to share.
2. Tap-and-hold the note you want to share.
3. In the pop-up screen, tap **Share** then select the type of file format you want to share it as.
4. In the next screen, select the Cloud storage account where you would like to share your note.
5. Follow the succeeding instructions to complete sharing your selected note.

File Manager

Using File Manager allows you to easily locate and manage your data on the internal storage of your ASUS Phone and its connected external storage devices.

Accessing the internal storage

To access the internal storage:

1. Tap **ASUS > File Manager**.
2. Tap  > **Internal storage** to view the contents of your ASUS Phone then tap an item to select.

Accessing the external storage device

To access the external storage device:

1. Insert the microSD card into your ASUS Phone.
2. Tap **ASUS > File Manager**.
3. Tap  > **MicroSD** to view the contents of your microSD card.

Accessing Cloud Storage

IMPORTANT! Ensure that Wi-Fi or mobile network is enabled on your ASUS Phone. For details, see [Staying connected](#).

To access files saved on your cloud storage accounts:

1. Tap **ASUS > File Manager**.
2. Tap  > then tap a cloud storage location under **Cloud storage**.

The Cloud

Back up your data, sync files among different devices, and share files securely and privately via a Cloud account such as ASUS WebStorage, Drive, OneDrive, and Dropbox.

ASUS WebStorage

Register for or sign in to ASUS WebStorage and get free cloud storage. Automatically upload newly captured photos for instant sharing, sync files among different devices, or share files via your ASUS WebStorage account.

NOTE: To the enjoy auto-upload function, enable Instant Upload from **Settings > Instant Upload** in your ASUS WebStorage.

IMPORTANT! Ensure that Wi-Fi or mobile network is enabled on your ASUS Phone. For details, see [Staying connected](#).

Data Transfer

Transfer your data such as contacts, calendar entries, or SMS messages from your old mobile device to your ASUS Phone via Bluetooth technology.

To use Data Transfer:

1. Pair your old mobile device with your ASUS Phone via Bluetooth.

NOTE: For more details on pairing devices, see [Pairing your ASUS Phone to a Bluetooth device](#).

2. From the All apps screen, tap **Data transfer**.
3. Tap **Transfer Wizard** then follow the onscreen instructions to complete the Data Transfer process.

ASUS Support

Find answers from FAQs (Frequently Asked Questions) or directly interact with other Zen UI users to find and share solutions about ZenUI 2.0 apps.

To access ASUS Support:

1. Tap  > **ASUS Support**.
2. Tap **ZenUI tips**, then select the app that you want to find answers for.

Call in style

Dual SIM feature

The dual SIM feature of your ASUS Phone lets you manage the settings of the installed micro SIM cards. With this feature, you can enable/disable the micro SIM cards, assign SIM names, or set one as a preferred network.

Renaming your micro SIM cards

Change the names of your micro SIM cards on your ASUS Phone so that you can identify them easily.

To change the names of your micro SIM cards, tap **SIM1 name: SIM1** or **SIM2 name: SIM2** then key in the names for your micro SIM cards.

NOTE: If your SIMs have different mobile service providers, we recommend you to use the names of these providers for your SIM names. If both SIMs have the same mobile service provider, we recommend you to use the mobile numbers for your SIM names.

Assigning a preferred micro SIM card

Assign a micro SIM card as your preferred SIM for voice calls and data services.

SIM card for voice calls

When you make a call, your ASUS Phone automatically uses the preferred micro SIM card to connect the call.

To assign a micro SIM card for voice calls, tap **Voice call** then tap the SIM that you want to use.

Voice call	
SIM1 (Available)	☒
SIM2 (Available)	☐
Always ask	☐
Cancel	

IMPORTANT! You can only use this feature if you make a call from your contacts list.

SIM card for data service

To assign a micro SIM card for data service, tap **Data service network** then select from **SIM1** or **SIM2**.

Data service network	
SIM1 (Available)	☒
SIM2 (Available)	☐
Cancel	

Making calls

Your ASUS Phone offers you many ways to make a call. Call your friends from your contacts list, smart dial to quickly place a call, or enter a speed-dial number to call your frequently-called contact.

NOTE: Organize your contacts in the Contacts app. For details, see [Managing contacts](#).

Launching the Phone app

From your Home screen, do any of the following to launch the Phone app:

- Tap .
- Tap  > **Phone**.

Dialing a phone number

Use the Phone app to directly dial a phone number.

1. From your Home screen, tap **Asus** > **Contacts** then tap the number keys.
2. Select from call buttons **SIM1** or **SIM2** to dial the number.

NOTE: The labels of the call buttons may vary depending on the setting that you made to your micro SIM cards. For more details, see [Dual SIM feature](#).

Dialing an extension number

When you need to call an extension number, you can do any of these steps to skip the voice prompts.

Prompting for confirmation of an extension number

You can insert a confirmation prompt for the extension number after dialing the main number.

1. From the Phone app, enter the main number.
2. Tap and hold # to insert a confirmation prompt, which is denoted by a semi-colon (;).
3. Select from call buttons **SIM1** or **SIM2** to make the call.
4. When prompted, tap **Yes** to confirm the extension number.

Auto-dialing an extension number

You can insert a short or long pause after dialing the main number, then the extension number is dialed automatically.

1. From the Phone app, enter the main number.
2. Tap and hold * to insert a pause, which is denoted by a comma (,).

NOTE: If you want a longer pause, tap and hold * again.

3. Enter the extension number.
4. Select from call buttons **SIM1** or **SIM2** to place the call.
5. Tap  to end the call.

Smart dialing your contacts

As you enter the first few numbers or letters of your contact's name, Smart Dial filters through your contacts list or call logs and provide you with possible matches. You can check if the contact you're trying to reach is on the list of possible matches, then you can quickly place that call.

1. Launch the Phone app then enter the number or name of the contact.
2. From the list of possible matches, tap the contact you wish to call. If the contact is not on list, enter the complete number or name of the contact.
3. Select from call buttons **SIM1** or **SIM2** to make the call.

NOTE: The labels of the call buttons may vary depending on the setting that you made to your micro SIM cards. For more details, see also [Dual SIM feature](#).

Speed dialing your contacts

Assign Speed Dial keys to quickly call your frequently-called contacts with just one tap on a single digit from the Phone app.

NOTE: By default, the digit **1** is reserved for your voicemails. You can retrieve your voicemails by tapping the digit **1**, if you've subscribed to this service with your mobile service provider.

Creating a speed dial entry

Create speed dial entries from digits **2** to **9** for your frequently-called contacts.

1. From the Phone app, do any of the following:
 - Tap and hold any digits from **2** to **9**, then tap **OK** on the Speed Dial confirmation screen.
 - Tap  > **Speed dial** to launch the Speed Dial screen.
2. Select a contact from your contacts list. This speed dial entry will be saved on the Speed Dial screen.

Deleting a speed dial entry

To delete a speed dial entry:

1. From the Phone app, tap  > **Speed dial** to launch the Speed Dial screen.
2. Tap and hold a speed dial entry, then tap **Remove**.
3. Tap **OK** on the confirmation message.

Replacing a speed dial entry

You can replace the contact assigned to a speed dial key with another contact.

1. From the Phone app, tap  > **Speed dial** to launch the Speed Dial screen.
2. Tap and hold a speed dial entry, then tap **Replace**.
3. Select a contact from your contacts list.
4. Tap **OK** on the confirmation message.

Home dialing

When you're on a trip abroad, enabling and configuring the Home dialing settings make it easier for you to quickly call home.

NOTE: Using a roaming service will incur additional charges. Inquire from your mobile service provider before using the roaming service.

1. Launch the Settings screen by doing any of the following:

- Launch Quick settings then tap .
- Tap  > **Settings**.

2. Tap **Call settings** > **Home dialing**.

3. Tick **Home dialing**.

4. Tap **Home dialing settings**, select the settings, then tap **OK** when done.

NOTE: For info on other call settings, see [Call Settings](#).

Calling from Contacts app

Use the Contacts app to make a call from your contacts list.

1. Launch the Contacts app.
2. Tap the contact name then tap the number that you wish to dial.
3. If there are two SIM cards installed, tap the SIM card from which you want to make the call.
4. Tap  to end the call.

NOTE: To view all contacts from all contact accounts, tap **Contacts to display** dropdown list then tick all accounts.

Calling your favorite contacts

When you add a contact to your Favorites list, you can quickly call the contact from the Phone app.

1. Launch the Contacts or the Phone app.
2. Tap  to display your Favorites list, then tap your favorite contact whom you want to call.
3. Tap  to end the call.

Receiving calls

The touch screen of your ASUS Phone lights up when there is an incoming call. The display of the incoming call also varies, depending on the status of your ASUS Phone.

Answering calls

There are two ways to answer a call depending on the status of your ASUS Phone:

- If your device is active, tap **Answer** or to reject a call, tap **Decline**.
- If your device is locked, drag  to  to answer or to  to reject the call.

Setting callbacks for incoming calls

When you can't answer an incoming call from a mobile number right away, you can set it as a call later task. You can retrieve and act on this task at a more convenient time from the Do It Later app.

1. On an incoming call from a mobile number, swipe up from the lower part of the screen.
2. Tap **Can't talk now, will call you later**. An SMS message will be sent to your caller.
3. To retrieve the call, tap **ASUS > Do It Later** from the Home screen.

NOTE: For details on giving a callback, see [Calling back now](#).

Managing your call logs

From your call logs, you can call back your missed calls, save calls to your contacts list, block callers, or redial your recently-called number or contact.

Setting callbacks for missed calls

You can set a missed call as a call later task. You can retrieve and do a callback for the missed call from the Do It Later app.

1. From the Phone app, tap  to display your call logs.
2. Select a call log, then tap  > **Call later**.
3. To retrieve the call, tap **ASUS > Do It Later** from the Home screen.

NOTE: For details on giving a callback, see [Calling back now](#).

Blocking calls

You can add a number or call from your call log to your block list.

1. From the Phone app, tap  to display your call logs.
2. Select the number that you want to block, tap  > **Add to block list**, then tap **OK**.

Saving calls to Contacts

You can add a call/number from your call logs to your contacts list.

1. From the Phone app, tap  to display your call logs.
2. Tap and hold a call from your call logs, then tap **Add to contacts**.
3. Tap **Create new contact** to add a new entry to your contacts list.

Tap **Add to existing contact**, select a contact, then tap **OK** if you want to overwrite the contact's number with this new one.

Redialing your last-called number

To redial your last-called number:

1. From the Phone app, tap  to display your call logs.
2. Tap **Call** to display your last-called number, then tap **Call** again to redial the number.
3. Tap  to end the call.

Other call options

During an active call, tap  and tap any of the possible call options for when a call is in progress.

Microphone

Turns the microphone for the active call on or off. When the microphone is off or in mute mode, you can hear the caller but the caller can't hear you.

Speakerphone

Turns the speakerphone on or off.

Call on hold

Puts an active call on hold.

Conference call

When you have subscribed to a conference call service with your mobile service provider, this icon allows you to add a contact or contacts in an active call.

NOTES:

- The number of participants in the conference call depend on your conference call subscription. You can inquire from your mobile service provider about this service.
- For more details on conference call, see [Managing multiple calls](#).

SuperNote

Launches the SuperNote app, letting you take down notes during an active call.

NOTE: For more details, see [SuperNote](#).

Record

Records an active call.

IMPORTANT! Before recording an active call, it is dictated by most local laws to ask permission from the other person or persons on the other line.

NOTE: For more details, refer to the section [Recording calls](#).

Managing multiple calls

Your ASUS Phone provides you the convenience of making or taking two calls. You can also set up a conference call that suits for business meetings, party lines, and other group calls.

Answering another call

While you are talking on your ASUS Phone, you can hear a beeping sound, indicating of another incoming call. Tap **Answer** on the touch screen to receive an incoming call while on an active call.

Switching between calls

To switch between calls, tap  on the touch screen.

Setting up a conference call

Your ASUS Phone, together with its GSM capability, can set up a conference call of up to five (5) people. During a call, you can add more contacts and merge all calls into one conference call.

1. Call a contact or dial a number. Wait for the other line to answer your call.
2. When your call is answered, tap  then tap a contact or dial a number that you wish to include in your conference call.
3. Tap  to put the two calls in a conference call.

4. Tap  to add another contact, then tap  to merge the call to the current conference call. Repeat this step if you want to add more contact/s to your conference call.

Managing a conference call

During the conference call, you can separate the contact from the conference group for private conversation, or disconnect a contact from the conference call.

1. From the Conference call screen, tap **Manage conference call** to open a list of contacts in the conference call.

2. To remove a contact from the conference call, tap . To disconnect a contact from the conference call, tap .

3. Tap  to go back to the Conference call screen.

Recording calls

Your ASUS Phone allows you to record a conversation for future reference or information.

1. Call a contact or dial a number.

2. Tap  to record the call.

IMPORTANT! Before recording a call, ensure that you ask for permission from the other party or parties.

3. To stop recording, tap . This  icon appears on the system notification bar.

4. Swipe down the upper left corner of the screen, then tap **Call recording saved** notification to view the recorded conversation.

Managing contacts

Organize your contacts and easily stay in touch with them via calls, SMS messages, emails, or social networks. Group your contacts as Favorites to quickly get in touch with them, or group them as VIPs to get notified about any upcoming events, missed calls, or unread messages.

You can also sync your contacts with your email or social network accounts, link contacts' info for easy access in one place, or filter the contacts you want to keep in touch with.

To launch the Contacts app, tap **ASUS > Contacts**.

Contacts Settings

Select how you would want to display your contacts from the Contacts settings. Such display options include displaying only those contacts with phones, sorting list by first/last name, or viewing contact names as first/last names first. You can also choose which of these tabs to display on your Contacts screen: **Favorites, Groups, VIP**.

To set up your Contacts settings, tap  > **Settings** from the Contacts app.

Setting up your profile

Make your ASUS Phone truly your own and set up your profile info.

1. Launch the Contacts app then tap **Set up my profile** or **ME**.

NOTE: ME appears when you've set up your Google account on your ASUS Phone.

2. Fill in your info such as mobile or home number. To add other info, tap **Add another field**.
3. When you've completed your info, tap **Done**. To view your profile info, swipe down twice from the top right of your screen to launch the Quick settings panel, then tap the owner button.

Adding contacts

Add contacts to your device, corporate, Google, or other email accounts and fill in more important contact information such as contact numbers, email addresses, special events for VIPs, and more.

1. Launch the Contacts app then tap **+**.
2. Select **Device**.

NOTES:

- You can also save the contact to your SIM card or an email account.
 - If you don't have an email account, tap **Add account** then create one.
-

3. Fill in the necessary information such as mobile or home number, email address, or group where you want to put the contact in.
4. After filling in the information and you want to add more contact numbers or email addresses, tap **New**.
5. If you want to add other contact information, tap **Add another field**.
6. When you've completed the info, tap **Done**.

Adding an extension number to a contact number

You can add a contact's extension number to skip the voice prompts when making a call.

1. In the contact's information screen, enter the contact's main number and extension number in either of these two ways:
 - Insert a comma (,) after the main number, then enter the contact's extension number. There'll be a short pause before the extension number is dialed automatically. To extend the pause, tap **Pause** to insert another comma.
 - Insert a semi-colon (;) after the main number, then enter the contact's extension number. When dialing the contact number, you'll be prompted to confirm the extension number. Tap **Yes** on the confirmation message.
2. When you've completed the info, tap **Done**.

Customizing your contact's profile

Edit your contact's info, add a photo, set a ringtone, or take a photo as a cover for your contact's profile.

1. Launch the Contacts app then select the contact whose info or profile you want to edit or customize.
2. Make the changes from the contact's profile page.

Setting up your VIPs

Group your contacts as VIPs to get notified about upcoming anniversaries, birthdays, and other important events. You'll also get alerts about any unread messages or emails, or any missed calls from your VIPs. You'll get all these notices as your What's Next alerts and reminders.

NOTE: For more details, see [What's Next](#).

Setting up your VIP from the contact's info screen

To set up your VIP from the contact's info screen:

1. Launch the Contacts app, tap the contact you want to set up as a VIP, then tap .
2. In your selected contact's screen, select **VIP** under the **Group** field.
3. When finished, tap **Done**. The contact is added to your VIP list.

Setting up your VIP from the VIP screen

To set up your VIP from the VIP screen:

1. Launch the Contacts app.
2. Tap  > **VIP**.
3. In the VIP screen, tap .
4. Select the contact or contacts you want to group as VIPs, then tap **Add**. The contact or contacts are added to your VIP list.

Adding an event to a VIP contact

You can add an event to a VIP contact such as anniversary, birthday, and other important events.

1. Launch the Contacts app, tap the contact you want to add an event detail to, then tap .
2. In the contact's info screen, tap **Add another field** > **Events**.

Email	
IM	
Address	Mobile ▼ ✕
Notes	Work ▼ ✕
Nickname	
Website	
Internet call	▼
Events	field

3. Select the date for the event, then tap **Set**.
4. Ensure that you select **VIP** under the Group field. When finished, tap **Done**.
5. The contact's special event will appear in your calendar of events. If you want to get an event alert, set the reminder time in the Calendar app.

NOTES:

- Set the reminder time for events in [Calendar](#) to get [What's Next](#) event alerts or reminders.
 - Aside from getting upcoming events reminders, you'll also get new email/SMS message and missed call notifications from What's Next. For more details, see [What's Next](#).
-

Marking your favorite contacts

Set your frequently-called contacts as your favorites to be able to call them quickly from the Phone app.

1. From the Home screen, tap **Asus > Contacts**.
2. Select the contact that you want to mark as a favorite.
3. Tap . The contact is added to your Favorites List in the Phone app.

NOTES:

- To view your Favorites list, tap  from the Home screen, then tap .
 - For more details, refer to the section [Calling your favorite contacts](#).
 - You can also set a favorite contact as a VIP. For more details, refer to the section [Setting up your VIPs](#).
-

Importing contacts

Import your contacts and their respective data from one contact source to your ASUS Phone, email account, or a micro SIM card.

1. Tap **Asus > Contacts** then tap  > **Manage contacts**.
2. Tap **Import/export** then select from the following importing options:
 - a. Import from SIM 1 card/Import from SIM 2 card
 - b. Import from storage
3. Select from the following accounts to save the contact:
 - a. Email account/s
 - b. Device
 - c. SIM1/SIM2
4. Tick to select the contacts that you wish to import and when done, tap **Import**.

Exporting contacts

Export your contacts to any of the storage accounts in your ASUS Phone.

1. Tap **Asus > Contacts** then tap  > **Manage contacts**.
2. Tap **Import/export** then select from the following exporting options:
 - a. Export to SIM 1 card/Export to SIM 2 card
 - b. Export to storage
3. Tap to select the contacts from the following accounts:
 - a. All contacts
 - b. Email account/s
 - c. Device
 - d. SIM1/SIM2
4. Tick the contacts that you want to export.
5. When done, tap **Export**.

Managing your block list

Blocking contacts or numbers

Create your list of blocked contacts or numbers to avoid receiving any unwanted calls or messages. Your blocked calls and messages will be saved to the Block List archive.

1. Tap **Asus > Contacts** then tap  > **Manage contacts > Block list**.
2. Tap  , then do any of the following:
 - To block a contact, tap **Select from contacts**, then select the contact you want to block from your contacts list.
 - To block a number, tap **Add a number** then enter the number that you want to block.
3. When done, tap **OK**.

Unblocking contacts or numbers

You may remove a blocked contact or number from your list and receive calls or messages from the contact or number again.

1. Tap **ASUS > Contacts** then tap  > **Manage contacts > Block list**.
2. Tap and hold on the contact or number that you want to unblock then tap **Remove from block list**.

Social networking with your contacts

Integrating the social network accounts of your contacts makes it easier for you to view their profiles, news, and social feeds. Stay updated with the activities of your contacts in real time.

IMPORTANT! Before you can integrate social network accounts of your contacts, you need to log in to your social network account and sync its settings.

Syncing your social network account

Sync your social network account to add the social network accounts of your contacts to your ASUS Phone.

1. Do any of the following to launch the Settings app:
 - Launch Quick settings then tap .
 - Tap  > **Settings**.
2. From the Settings screen, tap your social network account under Accounts section.
3. Tick **Contacts** to sync the social network accounts of your contacts.
4. Launch the Contacts app to view your contacts list.
5. To view only your contacts with social network accounts, tap **Contacts to display** then untick the other contact sources, leaving the social network name checked.
6. When done, tap  or anywhere on the screen.

Linking your contacts' info

When you add social network or email accounts, data from these accounts automatically sync with the Contacts app. In some instances, some contact info may appear in several places or under different name variations or nicknames in the Contacts app. You can manually link and unify all these info and put them under one place or profile.

1. From the Contacts app, tap the contact whose info you want to link.
2. From the contact's profile page, tap .
3. Select all the contact profiles that you think should be linked to one profile, then tap **Link**. You can now view and retrieve all your contact's info under one profile.

Backup/restore call logs

Have your call logs stored in your ASUS Phone to track the calls that you've received, made, or missed. You can also send the saved call logs to your online storage account or email it via the installed email apps in your ASUS Phone.

Creating a call log backup

1. From the Home screen, tap **Phone** then tap  to hide the keypad.
2. Tap  then tap **Backup call log**.
3. Tap **Backup call log to device** to save the call log backup in your ASUS Phone. To email the call log backup, tap **Backup call log to device and send out**.
4. Key in a backup file name then tap **OK**. After the backup is successful, tap **OK**.

Restoring call log backups

1. From the Home screen, tap **Phone** then tap  to hide the keypad.
2. Tap  then tap **Restore call log**.
3. Select a call log backup that you want to restore, then tap **OK**.
4. After restoring call log is successful, tap **OK**. Tap  to view the restored call logs.

Call Settings

Configure the settings for your incoming or outgoing calls, call barring, home dialing, and more.

1. Do any of the following to launch the Settings screen:

- Launch Quick settings then tap .
- Tap  > **Settings**.

2. Tap **Call settings**, then select any of these settings that you want to set up.

Block call settings	
Block function setting	Configure the settings for the Block function.
Block List	Display the list of your blocked contacts or numbers.
Incoming call settings	
Phone ringtone	Set up the ringtone for your SIM 1 or SIM 2 card.
Vibrate when ringing	Tick when you want your ASUS Phone to vibrate when it rings.
Call forwarding	Use this feature if you want to send calls to another number on any of these conditions: Always forward , Forward when busy , Forward when unanswered , and Forward when unreachable .
Call rejection message	Select or create the message that you want to send when you're unable to answer an incoming call.
Headset settings for incoming calls	When you've connected a Bluetooth or wired headset to your ASUS Phone, you can select to automatically answer or set the wait time for incoming calls.
Outgoing call settings	
Dial pad touch tones	Tick or untick to enable or disable the Dial pad sound in the Phone app.
Connection alert settings	Turn vibration on or off for the connection alert settings.
Fixed Dialing Numbers (FDN)	Set up these settings when you want to restrict outgoing calls only to those numbers in your FDN list, or to numbers with certain prefixes. Inquire from your mobile service provider about availing the FDN service for your SIM card.
Home dialing	Enable and configure your Home dialing settings. For more details, see Home dialing .
Other settings	
Auto call recording	Configure the settings for the auto call recording function.
Call duration	Display the length of calls between two parties. Call duration is measured differently depending on the mobile service provider.
Voice mail	Set up the voicemail settings, if you've subscribed to a voicemail service with your mobile service provider.

Additional settings	
No background during the call	When enabled, a black background is displayed during a call.
Phone account settings	Configure the SIP account and other phone settings.
DTMF tones	Sets the length of DTMF tones.

Send messages and more

Messaging

Messaging lets you send, promptly reply, or reply at a later time to important messages from your contacts in any of your SIM cards installed on your ASUS Phone. You can also email your message threads or conversations to others to keep them in the loop.

Launching the Messaging app

From your Home screen, do any of the following to launch the Messaging app:

- Tap 
- Tap  > **Messaging**

Sending messages

1. Launch the Messaging app then tap .
2. In the **To** field, enter the number or tap  to select a contact from your list.
3. Start composing your message in the **Type message** field.
4. When you're done, select the SIM account where you're going to send your message from.

Replying to messages

1. Tap your message alert from your Home screen or Lock screen.
2. Start composing your reply in the **Type message** field.
3. When you're done, select the SIM account where you're going to send your reply from.

Blocking messages

Block spam messages such as sales ad messages, or messages from unwanted senders.

1. From the **Home screen**, tap , then tap .
2. From your list of message threads, select the sender that you don't want to receive any message from.

Forwarding a message thread

You can forward a message thread or conversation to others, and set an alert so you can reply to an important message at a convenient time.

1. From the **Home screen**, tap .
2. Tap to select a sender image, then tap  > **Forward SMS conversation**.
3. Tap **Select All** or any of the messages from the thread, then tap **Forward**.
4. In the **To** field, tap  to select a contact's email address or mobile number.
5. When you're done, select the SIM account where you're going to send your message from. The conversation will be forwarded as an MMS (Multimedia Messaging Service) message.

NOTES:

- Ensure that you have MMS subscription with your mobile service provider.
 - Ensure that data access is enabled on your device. From your Home screen, tap  > **Settings** > **More** > **Cellular networks**, then tick **Data enabled**.
 - Mobile data and messaging rates apply when forwarding conversations to others.
-

Messaging later

You can set an important message as a reply-later task and reply to it later from the Do It Later app.

1. In the message screen, tap .
2. Tap **Reply later**. The message is added to your Do It Later tasks.
3. To retrieve and reply to the email, tap **ASUS** > **Do It Later** from the Home screen.

NOTE: For details on replying to reply-later messages, see [Replying now](#).

Other messaging options

When you are in an active message thread or while composing a message, you can tap  and do any of these other options below.

Add subject	Tap to add the title of your message.
Insert smiley	Insert a smiley or emoticon into your message.
Insert text templates	Insert a predefined reply into the body of your message.
Delete messages	Tap this option and select the messages that you want to delete from the thread.
Settings	Tap this option to configure the message settings.

Omlet Chat

Omlet Chat is an open messaging and mobile sharing app that lets you chat with friends on the spot. It also allows you to manage your data by storing them securely to your private Cloud accounts.

NOTES:

- Omlet Chat app may only be available in some countries.
- On its first use, you have to visit Play Store to update Omlet Chat. You must have a Google account to update Omlet Chat.

Registering to Omlet Chat

Register to Omlet Chat with any of the following accounts:

- Mobile phone number
- E-mail account
- Gmail account
- Facebook account

Using your mobile phone number

To register using mobile phone number:

1. Tap  then tap **Omlet Chat**.
2. On the Sign Up screen, swipe the screen to the left to read highlighted features of Omlet Chat. If you want to register immediately, tap **Skip**.
3. Select the country that you are currently located, key in your mobile phone number, then tap **Next** to receive a text message containing the PIN.
4. Key in the PIN then tap **Next**.
5. Key in your name then tap **Get Started**.

6. Tap **Okay! Let's do it!** to update your friends from your contacts list. Tap **No thanks** to add your friends manually to your contacts list.

NOTE: Your Omlet contacts are automatically integrated to your contacts list in Contacts app. Refer to section [Viewing your Omlet contacts from Contacts app](#) for more information.

Using your Google™ account

To register using your Google™ account:

1. Tap  then tap **Omlet Chat**.
2. On the Sign Up screen, tap **Connect a different account here** then tap **Google**.
3. Tap **OK** to use the Google account that you registered with your device.
4. Key in your name then tap **Get Started**.
5. Tap **Okay! Let's do it!** to update your friends from your contacts list. Tap **No thanks** to add your friends manually to your contacts list.

NOTE: Your Omlet contacts are automatically integrated to your contacts list in Contacts app. Refer to section [Viewing your Omlet contacts from Contacts app](#) for more information.

6. Tap  to display the Omlet Chat menu.

Using your e-mail account

To register using your e-mail account:

1. Tap  then tap **Omlet Chat**.
2. On the Sign Up screen, tap **Connect a different account here** then tap **Email**.
3. Key in your e-mail account then tap **Next**. Omlet Chat app will send a confirmation email to your e-mail account.
4. From your e-mail account, open the confirmation email from Omlet then tap the link to activate your account.
5. Key in your name then tap **Get Started**.
6. Tap **Okay! Let's do it!** to update your friends from your contacts list. Tap **No thanks** to add your friends manually to your contacts list.

NOTE: Your Omlet contacts are automatically integrated to your contacts list in Contacts app. Refer to section [Viewing your Omlet contacts from Contacts app](#) for more information.

7. Tap  to display the Omlet Chat menu.

Using your Facebook® account

To register using your Facebook account:

1. Tap  then tap **Omlet Chat**.
2. On the Sign Up screen, tap **Connect a different account here** then tap **Facebook**. Omlet Chat app will take you to Facebook screen to log in to your Facebook account.
3. Log in to your Facebook account then tap **OK**.
4. Key in your name then tap **Get Started**.
5. Tap **Okay! Let's do it!** to update your friends from your contacts list. Tap **No thanks** to add your friends manually to your contacts list.

NOTE: Your Omlet contacts are automatically integrated to your contacts list in Contacts app. Refer to section [Viewing your Omlet contacts from Contacts app](#) for more information.

6. Tap  to display the Omlet Chat menu.

Sending Omlet invites

Invite your friends to use Omlet Chat by sending them Omlet invites to their e-mail or Facebook account.

Sending Omlet invites via Facebook

To send an Omlet invite via e-mail:

1. From the Omlet Chat screen, tap  to display Omlet Chat menu.
2. Tap **Contacts** then tap **Add/Invite friends**.
3. From the Add contacts screen, tap **Invite Facebook friends**.
4. Log in to your Facebook account then tap **OK** to let Omlet Chat access your account.
5. Tap + to select the contacts then tap **Send**.

Sending Omlet invites via e-mail

1. From the Omlet Chat screen, tap  to display Omlet Chat menu.
2. Tap **Contacts** then tap **Add/Invite friends**.
3. From the Add contacts screen, tap **Invite address book friends**.
4. Tick to select the contacts, then tap .

Using Omlet chat

Send text and multimedia messages for a fun, creative, and interactive conversation.

To start a conversation:

1. From the Omlet Chat screen, tap  to display Omlet Chat menu then tap **Contacts**.
2. Tap the contact that you wish to chat then tap .

Sending a chat message

To send a chat message, key in your message in **What's up** field then tap .

Sending a voice message

To send a voice message, tap and hold  while saying your message then release  to send.

Sending a virtual sticker

To send a virtual sticker, tap  then select from the available virtual stickers.

NOTE: You can download more virtual stickers from Sticker Store. To download the virtual stickers, tap  >  then tap .

Using drawer apps

Omlet Chat features these value-added drawer apps, allowing you to share multimedia messages for a more fun and personal touch.

To use these drawer apps, tap **+** from the chat thread then select an app from the drawer app list to send a specific multimedia message.

Swipe up the screen shown above to view these icons:

More drawer apps

Aside from the default apps in the drawer app list, there are other apps listed in your Omlet Chat app that you can use. Simply tap **+** from the chat thread, then tap **+** to view more drawer apps.

Using other drawer apps

To use other drawer app, tap **+** then tap an app to launch it.

Adding more drawer apps to the drawer app list

Tap **+** to view more apps, then tap and hold an app and tap **Pin it!**

NOTE: The drawer apps may vary depending on location.

Using Social Hotspot

Social Hotspot is a quick and easy way to chat with your friends in one chat room. With this feature, you can start a group chat or simply join in a group chat without giving out your identification or contact information.

NOTES:

- You need to activate the GPS in your device to use Social Hotspot.
 - Social Hotspot feature can detect Omlet Chat users in two (2) kilometer radius and is only active for four (4) hours.
-

Creating a Social Hotspot

To create a Social Hotspot:

1. From the Omlet Chat screen, tap  to display Omlet Chat menu then tap **Broadcasts here**.
2. Tap **Create** to create an Omlet ID then tap **OK**.
3. Tap  to go back to Broadcasts here screen. Your device automatically shows your location via Google Maps app.
4. On the upper right corner of the screen, tap .
5. From the Broadcasts here pop-up screen, you can do any of the following:
 - change Chat photo
 - edit Social Hotspot name
 - protect Hotspot

6. When done, tap **OK** to broadcast your social hotspot.

Joining a Social Hotspot

To join a Social Hotspot:

1. From the Omlet Chat screen, tap  to display Omlet Chat menu then tap **Broadcasts here**. Omlet Chat launches the Google Maps app to your screen and shows the active social hotspots.

NOTE: The social hotspots are marked by the  icon.

2. Select a hotspot to join by doing any of the following:

- From the integrated Google Maps screen, tap  to show the name of the social hotspot then tap **OK** to join in the conversation.
- On upper right corner of the screen, tap  then tap on the social hotspot that you wish to join and tap **OK**.

On the Social Hotspot screen, you can chat with your friends, send stickers, or share photos with the group.

NOTE: To view shared photos, refer to section [Viewing shared photos in Gallery app](#).

Viewing shared photos in Gallery app

The photos that you and your friends have shared in the Omlet Chat app's chat room are instantly saved to your device. You can view the shared photos using the Gallery app.

To view the shared photos:

1. Launch the Gallery app.
2. From the Gallery main screen, tap  then select **Social Gallery - Omlet**.

Viewing your Omlet contacts from Contacts app

Aside from connecting with your Omlet contacts in Omlet Chat app, you can also view and chat with your Omlet contacts using the Contacts app. The integration of your Omlet contacts to the Contacts app makes it easier for you to look up and chat to your Omlet contacts even without launching Omlet Chat app.

To view Omlet Contacts from Contacts app:

1. Launch the Contacts app by doing any of the following:
 - a. From the Home screen, tap **ASUS > Contacts** app.
 - b. From the Home screen, tap **Phone** app then tap .
 - c. From the All Apps screen, tap **Contacts** app.

2. Tap **Contacts to display** dropdown list to view the contact groups.

3. Untick all contact groups except **Omlet Chat**, then tap anywhere on the screen to display all Omlet contacts.
4. Tap an Omlet contact to select and view the contact details or chat with that contact directly.

Syncing Omlet Chat to Cloud

If you have a Dropbox®, Box®, or Baidu PCS Cloud account, the Omlet Chat app instantly uploads your private conversations and chat logs securely.

Before Omlet Chat app uploads your data, you have to sync your Cloud account to Omlet Chat app first. To do this:

1. From the Omlet Chat menu, tap **Settings**.
2. Tap **Cloud Storage**, then select from the following Cloud services:
 - a. Dropbox
 - b. Box
 - c. Baidu PCS
3. Key in your username and password to log in to your Cloud account. Follow the onscreen instructions to sync your Cloud account with Omlet Chat app.

Using a headset

Have the freedom to do other things while you're in a call or enjoy listening to your favorite music, using a headset.

Connecting the audio jack

Insert the 3.5mm headset jack into the audio port of your device.

WARNING!

- Do not insert other objects into the audio jack port.
- Do not insert a cable with electric power output into the audio jack port.
- Listening at a high volume for long periods can damage your hearing.

NOTES:

- We highly recommend to use only compatible headsets or the bundled headset with this device.
 - Unplugging the audio jack while listening to music, automatically pauses the music played.
 - Unplugging the audio jack while watching a video, automatically pauses the video playback.
-

Music

Music app automatically searches for music files from the internal and external storages on your ASUS Phone. You can organize these music files in a playlist or add them in a queue to play them sequentially. You can also stream music from cloud accounts such as ASUS WebStorage, Dropbox, OneDrive, and Drive.

IMPORTANT! Before streaming music from a cloud account, ensure that your ASUS Phone is connected to a Wi-Fi or mobile network. For more details, see [Staying connected](#).

Launching Music

To launch Music, tap  > **Music**.

Playing songs

To play a song:

1. From the Music app, tap **Music** then select **Songs**. You can also select these other options how you want to browse your music files: **Album**, **Artist**, **Genres**, **Composer**, or **Folder**.
2. From your list, tap the song that you want to play. Tap **Play All** if you want to play all songs.
3. Swipe up from the song title bar to get a full screen of the song that's currently playing.

NOTE: To add several songs to an existing playlist, see [Adding songs to a playlist](#).

Other playback options

During playback, you can tap  and do any of these other options below.

Add to playlist	Tap to add the song to an existing playlist or create a new one to add the song to it.
Play To	Tap to scan and play the song to other devices nearby. NOTE: For details, see PlayTo other devices .
Edit info	Tap to add some details about the song.
Share	Tap to share the song via some apps or cloud accounts.
Set as ringtone	Tap to use the song as the ringtone.
Add to queue / Clear queue	Tap Add to queue to add the song to your queue list. Tap Clear queue to remove all songs in the queue.
Equalizer	Tap to configure the Equalizer settings and get better audio for your songs.
Sleep timer	Set the time when the music will stop playing.
Settings	Tap this option to configure the Music settings.
Encourage us	Tap to rate ASUS Music 5-star on Play Store.
Feedback & Help	Get answers to your questions and you can send to us your feedbacks.

Streaming Cloud music

Register or sign in to a cloud account and stream music from your cloud account to your ASUS Phone.

IMPORTANT! Ensure that Wi-Fi or mobile network is enabled on your ASUS Phone. For details, see [Staying connected](#).

Adding a cloud storage account

To add a cloud storage account:

1. From the Music home screen, tap .
2. Under Cloud Music, tap **Add cloud service**.
3. Select the cloud storage service where you want to play music files from.
4. Follow the succeeding instructions to complete signing in to your cloud storage account.

Streaming music from the cloud

To stream music from your cloud account.

1. From the Music home screen, tap .
2. Under **Cloud Music**, tap the cloud account where you want to stream music from.
3. Select the song, then tap to play it.

Creating a playlist

Get your favorite songs from different sources such as internal storage, external storage, or cloud accounts and organize them in a playlist.

1. From the Music home screen, tap .
2. Under **Playlist**, tap **My playlist**, then tap .
3. Assign a name to your playlist, then tap **Save**.

Adding songs to a playlist

You can add several songs to your playlist at one time from your local source (internal and external storages) or cloud accounts.

1. From the Music home screen, tap .
2. Under **Playlist**, tap **My playlist**, then tap the name of your playlist.
3. Tap **Add songs**.
4. Tap the music source where you want to get your songs from to add to your playlist.
5. Select how you'd want to browse your music: **Album**, **Artist**, **Genres**, **Composer**, **Songs**, or **Folder**.
6. Select the songs that you'd want to add to your playlist. Tap **Select All** if you want to add all songs from your music list, album, folder, or from your favorite artists.

NOTE: You can also add a currently-playing song to an existing playlist. For details, see [Other playback options](#).

PlayTo other devices

Use the PlayTo function to stream music from your ASUS Phone to other Miracast or DLNA-enabled devices nearby.

To use PlayTo:

1. From a currently-playing song, tap  > **PlayTo**.
2. Tap the device that you want to stream music to. Music from your ASUS Phone will play or stream on the other device.
3. To stop PlayTo, tap  > **Disconnect**.

FM Radio

Listen to your favorite local radio stations using your ASUS Phone.

1. Connect the bundled headset with your ASUS Phone.
2. Tap  > **FM Radio**.

Scanning for local stations

To scan for stations in your area, tap  to automatically scan for your local radio stations. The available local stations are displayed on the FM Radio screen.

Tuning to another frequency

Do the following if you want to listen to a specific radio station:

1. From the FM Radio app, tap the current radio station.
2. On the Tune frequency box, enter the channel of your favorite radio station.
3. If you want to add it to your Favorites, tap **Add to favorites**.
4. When done, tap **OK**.

Your precious moments

6

Capture moments

Launching the Camera app

Capture images and record videos using your ASUS Phone's Camera app. Refer to any of the steps below to open the Camera app.

From the lock screen

Drag down  until the camera app is launched.

Using the camera widget

From the lock screen, swipe to the left to launch the Camera widget that automatically opens the Camera app.

From the home screen

Tap .

Using the volume key

While your ASUS Phone is on sleep mode, double-click the volume key to wake it up and immediately launch the Camera app.

NOTE: Before using the volume key to launch the Camera app, enable this function from **Settings** > **Lock screen**, then slide **Instant camera** to **ON**.

Using Camera for the first time

After launching the Camera for the first time, two consecutive features appear to help you get started: Tutorial and Image locations.

Tutorial

If it is your first time to use your ASUS Phone's camera, you will encounter the following tutorial screen after launching the **Camera** app. Refer to the following steps to proceed from this screen.

1. On the Tutorial screen, tap **Skip** if you want to skip viewing or **Start** to view the basic tutorial about using Camera.
2. After tapping either of these options, you will then proceed to the Remember Photo Locations screen.

Photo Locations

After going through the Tutorial screen, the Remember Photo Locations screen appears to help you create automatic location tags for your images. Refer to the following steps to proceed from this screen:

1. On the Remember Photo Locations screen, tap **No thanks** to proceed to the camera screen or **Yes** to set up location tagging for your captured images.
2. Slide **Location** to **ON** to enable the location tagging feature.
3. Tap **Agree** on the next screen to fully enable the feature and proceed to the Camera screen.

Camera home screen

Your ASUS Phone's camera is equipped with auto-scene detection and auto-image stabilizer features. It also features a video stabilization function that helps prevent shakiness while video recording.

Tap the icons to start using your camera and explore the image and video features of your ASUS Phone.

Image settings

Adjust the appearance of your captured images by configuring your camera's settings using the steps below.

IMPORTANT! Apply the settings first before taking images.

1. On the camera's home screen, tap  > .
2. Scroll down and configure the available options.

Image

Configure the image quality using these options.

Shoot mode

Set your shutter speed to **Timer** mode or change the **Burst** speed under this option.

Focus & exposure

Enable **Touch auto-exposure** or **Face detection** under this option.

Video settings

Adjust the appearance of your recorded videos by configuring your camera's settings using the steps below.

IMPORTANT! Apply the settings first before taking images.

1. On the camera's home screen, tap  > .
2. Scroll down and configure the available options.

Image

Configure the video quality using these options.

Focus & exposure

Enable **Touch auto-exposure** under this option.

Advanced camera features

Explore new ways of capturing images or videos and make captured extra special moments using the advanced camera features of your ASUS Phone.

IMPORTANT! Apply the settings first before taking images. Available features may vary per model.

Low light

Using PixelMaster, your camera's light sensitivity is increased by up to 400% to enhance noise reduction and boost color contrast by up to 200%. Use this mode to transform any subject into a great photo or video—with or without ample natural lighting.

Capturing Low light photos

1. From the Camera app's home screen, tap  > **Low light**.
2. Tap  to start capturing photos.

Capturing Low light videos

1. From the Camera app's home screen, tap  > **Low light**.
2. Tap  to start recording a video.

Time Rewind

After selecting **Time Rewind**, your shutter starts taking burst shots two seconds before you actually press the shutter button. As a result, you get a timeline of images where you can choose the best image to save on your Gallery.

NOTE: The Time Rewind feature can only be used on the rear camera.

Capturing Time Rewind photos

1. From the Camera app's home screen, tap  > **Time Rewind**.
2. Tap  to start capturing photos.
3. Adjust the time (in seconds) that you want your captured photo to play in reverse or rewind mode.
4. Tap  when finished.

Using the Time Rewind viewer

1. After pressing the shutter, the Time Rewind viewer appears onscreen on top of a captured photo. Rotate the button on the viewer to browse through the photos you just took.

NOTE: Tap **Best** to view the best photo suggestion from the timeline.

2. Select a photo then tap **Done** to save it to Gallery.

HDR

The High-dynamic-range (HDR) feature allows you to take more detailed images for low-light and highly contrasting scenes. HDR is recommended for use when taking images on brightly lit locations, helping balance out the colors produced on your image.

Capturing HDR photos

1. From the Camera app's home screen, tap  > **HDR**.
2. Tap  to start capturing HDR photos.

Panorama

Capture images from various angles using Panorama. Images captured from a wide angle perspective are automatically stitched together using this feature.

Capturing panoramic photos

1. From the Camera app's home screen, tap  > **Panorama**.
2. Tap  then pan your ASUS Phone to the left or right to capture the scenery.

NOTE: While panning your ASUS Phone, a timeline of thumbnails appears on the lower part of your screen as it captures the scenery.

3. Tap  when finished.

Night

Take well-lit photos even on night time or on low-light situations using the Night feature of your ASUS Phone.

NOTE: Keep your hands steady while before and while the ASUS Phone is capturing the image to prevent blurry results.

Capturing Night photos

1. From the Camera app's home screen, tap  > **Night**.
2. Tap  to start capturing Night photos.

Selfie

Take advantage of your rear camera's high megapixel specs without worrying about pressing the shutter button. Using face-detection, you can set your ASUS Phone to detect up to four faces using the rear camera then automatically capture your selfie or group selfie.

Capturing Selfie photos

1. From the Camera app screen, tap  > **Selfie**.
2. Tap  to choose how many people should be included in the photo.
3. Use the rear camera to detect faces and wait for your ASUS Phone to start beeping, counting down until it captures the photo.
4. Tap  to save the photo.

Depth of field

Take macro shots with a soft background using the Depth of field. This feature suits close up photos of subjects for a more defined and dramatic result.

Capturing photos with depth of fields

1. From the Camera app screen, tap  > **Depth of field**.
2. Tap  to start capturing macro photos.

Miniature

Simulate the tilt-shift effect of DSLR lenses via the Miniature feature. Using this feature allows you to focus on specific areas of your subject, adding a bokeh effect that can be used on both photos and video using your ASUS Phone.

Capturing Miniature photos

1. From the Camera app screen, tap  > **Miniature**.
2. Tap  or  to select your focus area, then use your two fingers to adjust the focus area's size and position.
3. Tap  or  to increase or decrease the background blur. Tap  or  to increase or decrease saturation.
4. Tap  to capture Miniature photos.

Smart remove

Eliminate unwanted details immediately after capturing the image using the Smart remove feature.

Capturing Smart remove photos

1. From the Camera app screen, tap  > **Smart remove**.
2. Tap  capturing photos that can be edited using Smart remove.
3. On the captured photo, tap the outline around the detected moving object to delete it.
4. Tap  to save the photo.

All Smiles

Capture the perfect smile or the wackiest facial expression from a range of photos using the All Smiles feature. This feature lets you take five consecutive photos after pressing the shutter button, automatically detecting faces on the image for comparison.

Capturing All smiles photos

1. From the Camera app's home screen, tap  > **All smiles**.
2. Tap  to start capturing photos that can be edited using All Smiles.
3. Touch the subject's face, then select the subject's best facial expression.
4. Swipe down from the top, then tap  to save the photo.

Beautification

Have fun during and after taking photos of your family and friends using the Beautification feature of your ASUS Phone. When enabled, this feature allows you to make live beauty enhancements on your subject's face before you press the shutter button.

Capturing Beautification photos

1. From the Camera app's home screen, tap  > **Beautification**.
2. Tap  to start capturing the photo.
3. Tap the thumbnail to preview the photo and display the Beautification settings.
4. Tap  and select your preferred Beautification feature, then tap  to save the photo.

GIF animation

Create GIF (Graphics Interchange Format) images straight from your ASUS Phone's camera using the GIF animation feature.

Capturing GIF animation photos

1. From the Camera app's home screen, tap  > **GIF Animation**.
2. Long press  to start capturing burst photo for GIF animation.
3. Make your preferred adjustments to the GIF animation settings.
4. Tap  when finished.

Time lapse

The time lapse video feature of your ASUS Phone allows you to capture stills for automatic time lapse playback. In effect, events seem to move in a fast-forward manner though they actually occurred and were recorded between long intervals.

Recording Time lapse videos

1. From the Camera app's home screen, tap  > **Time lapse**.
2. Tap  then select the time lapse interval.
3. Tap  to start taking Time lapse videos.

Using the Gallery

View images and play videos on your ASUS Phone using the Gallery app.

This app also allows you to edit, share, or delete image and video files stored in your ASUS Phone. From Gallery, you can display images in a slideshow or tap to view the selected image or video file.

To launch Gallery, tap **ASUS > Gallery**.

Viewing files from your social network or cloud storage

By default, your Gallery displays all the media files on your ASUS Phone according to their album folders.

To view the media files from other locations accessible via your ASUS Phone:

1. From the main screen, tap .
2. Tap any of the following source locations to view their respective media files.

NOTES:

- You can download photos to your ASUS Phone from your cloud account and use them as your wallpaper or a contact's cover image.
 - For details on adding cover images to your contacts, see [Customizing your contact's profile](#).
 - For details on using photos or images as your wallpaper, see [Wallpapers](#).
-

IMPORTANT! Internet connection is required for viewing photos and videos under **Asus HomeCloud**, **Social Gallery - Omlet**, and **My cloud**.

Viewing the photo location

Enable the location access on your ASUS Phone, and get the location details on your photos. Your photos' location details include the area where the photos are taken, as well a map of the location via Google Map or Baidu (in China only).

To view the details of a photo:

1. Turn on the location access from  > **Settings** > **Location**.
2. Ensure that you have shared your location to Google Map or Baidu.
3. Launch the Gallery app, and select the photo whose photo details you want to view.
4. Tap the photo then tap  .

Tap to show the photo location details

Sharing files from the Gallery

1. From the Gallery screen, tap the folder where the files you want to share are located.
2. After opening the folder, tap  to activate file selection.
3. Tap the files you want to share. A check mark appears on top of the image you select.
4. Tap  then select from the list where you want to share the images.

Deleting files from the Gallery

1. From the Gallery screen, tap the folder where the files you want to delete are located.
2. After opening the folder, tap  to activate file selection.
3. Tap the files you want to delete. A check mark appears on top of the image you select.
4. Tap .

Editing images

The Gallery also features its own image editing tools that you can use to enhance images saved on your ASUS Phone.

1. From the Gallery screen, tap the folder where the files are located.
2. After opening the folder, tap the image you want to edit.
3. Once the image is opened, tap it again to show its functions.
4. Tap  to open the image editing toolbar.
5. Tap any of the icons on the editing toolbar to apply changes to the image.

Zooming in/out the thumbnails or images

From the Gallery screen or your selected image, spread apart your fingers on the touchscreen panel to zoom out. To zoom in, bring your fingers together on the touchscreen panel.

Posting photos to your Calendar event wall

Enabling this feature in your Gallery allows you to view photos straight from your Calendar events. This way, you can immediately group captured photos according to their specific event name.

1. After taking photos from your ASUS Phone, launch **Gallery**.
2. Tap  > **Events wall**.
3. Tap  on the upper right corner of the folder containing the photos taken during an event.
4. Select the Calendar event you would like to integrate with the photo folder.
5. The  icon appears on the upper right corner of the photo folder indicating that the photos are successfully posted on the event wall.
6. To view the event photos, open the event from the Calendar app, then tap .

IMPORTANT!

- This feature is only enabled after setting events on the Calendar. For more details on how to set events, see [Calendar](#).
 - Only photos taken with your ASUS Phone's camera on the same date and time as a Calendar event can use this feature.
-

Using MiniMovie

Turn photos into a creative slideshow using the MiniMovie feature of the Gallery. MiniMovie contains a theme of slideshow presentations which you can immediately apply to selected photos.

To create a MiniMovie from a photo folder:

1. Launch Gallery then tap  to select the location of your photo folder.
2. Select the photo folder then tap  > **Auto MiniMovie**.
3. Select the MiniMovie theme you would like to use for your photo slideshow.

4. After selecting a theme, tap  to save the slideshow.
5. You can then share the slideshow to social network sites or instant messaging apps such as Facebook, Google Plus, or Omlet Chat.

To create a MiniMovie from a selection of photos:

1. Launch Gallery then tap  to select the location of your photos.
2. Tap  to activate file selection.
3. After selecting your photos, tap **MiniMovie**.
4. Select the MiniMovie theme you would like to use for your photo slideshow.

5. After selecting a theme, tap  to save the slideshow. You can access your saved slideshows from **ASUS > File Manager > Movies > MiniMovie**.
6. You can then share the slideshow to social network sites or instant messaging apps such as Facebook, Google Plus, or Omlet Chat.

Using PlayTo (on selected models only)

Play files from your Gallery to a compatible streaming device using PlayTo.

1. From the Gallery screen, tap  or the folder where the file you want to screencast is located.
2. Tap  > **PlayTo**.
3. In the next screen, select a compatible device to start screencasting your file.

Staying connected

7

Mobile network

When there's no available Wi-Fi network that you can connect to, you can enable your mobile network's data access for Internet connection.

Enabling the mobile network

1. Do any of the following to launch the Settings screen:

- Launch Quick settings then tap .
- Tap  > **Settings**.

2. Tap **More** > **Cellular networks**.

3. Tick **Data enabled**, and configure the other mobile network settings, if necessary.

NOTES:

- If you access the Internet via your mobile network, additional charges will be incurred depending on your data plan.
 - For more details on your mobile network charges/fees and settings, contact your mobile service provider.
-

Wi-Fi

The Wi-Fi technology of your ASUS Phone gets you connected to the wireless world. Update your social media accounts, browse the Internet, or exchange data and messages wirelessly from your ASUS Phone.

Enabling Wi-Fi

1. Launch the Settings screen by doing any of the following:

- Launch Quick settings then tap .
- Tap  > **Settings**.

2. Slide the Wi-Fi switch to the right to turn on the Wi-Fi.

NOTE: You can also enable the Wi-Fi from Quick Settings screen. Refer to section [Quick Settings](#) on how to launch Quick Settings screen.

Connecting to a Wi-Fi network

1. On the Settings screen, tap **Wi-Fi** to display all detected Wi-Fi networks.
2. Tap a network name to connect to it. For a secured network, you may be prompted to key in a password or other security credentials.

NOTES:

- Your ASUS Phone automatically reconnects to the network that you connected with previously.
 - Turn off the Wi-Fi feature when you're not using it to help save battery power.
-

Disabling Wi-Fi

To disable Wi-Fi:

1. Launch the Settings screen by doing any of the following:
 - Launch Quick settings then tap .
 - Tap  > **Settings**.
2. Slide the Wi-Fi switch to the left to turn off the Wi-Fi.

NOTE: You can also disable the Wi-Fi from Quick Settings screen. See [Quick Settings](#) on how to launch Quick Settings screen.

Bluetooth®

Use the Bluetooth feature of your ASUS Phone to send or receive files and stream multimedia files with other smart devices over short distances. With Bluetooth, you can share your media files with your friends' smart devices, send data for print with a Bluetooth printer, or play music files with a Bluetooth speaker.

Enabling Bluetooth®

1. Do any of the following to launch the Settings screen:
 - Launch Quick settings then tap .
 - Tap  > **Settings**.
2. Slide the Bluetooth switch to the right to turn on the Bluetooth.

NOTE: You can also enable the Bluetooth from Quick Settings screen. See [Quick Settings](#) on how to launch Quick Settings screen.

Pairing your ASUS Phone to a Bluetooth® device

Before using the Bluetooth feature of your ASUS Phone in full scale, you have to pair it first with the Bluetooth device. The ASUS Phone automatically stores the pairing connection of the Bluetooth device.

1. On the Settings screen, tap **Bluetooth** to display all available devices.

IMPORTANT!

- If the device that you want to pair is not in the list, ensure to enable its Bluetooth feature and is discoverable.
 - See the user guide that came with your device to learn how to enable its Bluetooth and set it to discoverable.
-

2. Tap  > **Refresh** to scan for more Bluetooth devices.
3. In the list of available devices, tap the Bluetooth device that you want to pair with.
4. Ensure that the same passkey show on both devices, then tap **Pair**.

NOTE: Turn off the Bluetooth feature when you're not using it to help save battery power.

Unpairing your ASUS Phone from the Bluetooth® device

1. On the Settings screen, tap **Bluetooth** to display all available and paired devices.
2. In the list of paired devices, tap  of Bluetooth device that you want to unpair, then tap **FORGET**.

Tethering

When Wi-Fi service is not available, you can use your ASUS Phone as a modem or turn it into a Wi-Fi hotspot to get Internet access on your laptop, tablet, and other mobile devices.

IMPORTANT! Most mobile service providers may require a data plan for you to be able to use the tethering function. Contact your mobile service provider about availing of this data plan.

NOTES:

- Internet access via tethering may be slower than the standard Wi-Fi or mobile connection.
 - Only a limited number of mobile devices can tether to your ASUS Phone for Internet access.
 - Turn off the tethering feature when you're not using it to help save battery power.
-

Wi-Fi Hotspot

Turn your ASUS Phone into a Wi-Fi Hotspot to share Internet connection with other devices.

1. Do any of the following to launch the Settings screen:

- Launch Quick settings then tap .
- Tap  > **Settings**.

2. Tap **More** > **Tethering** > **Set up Wi-Fi hotspot**.

3. Assign a unique SSID or network name and at least 8-character password for your Wi-Fi hotspot. When done, tap **Save**.

4. From the Tethering screen, slide **Portable Wi-Fi hotspot** to **ON**.

5. Connect other devices to your ASUS Phone's hotspot connection the same way you connect to a Wi-Fi network.

Bluetooth Tethering

Enable Bluetooth on your ASUS Phone and use it as a modem for Internet access on your Bluetooth-enabled mobile devices such as a laptop or a tablet.

1. Enable Bluetooth on your ASUS Phone and the other device.
2. Pair both devices.

NOTE: For details, see [Pairing your ASUS Phone to a Bluetooth® device](#).

3. From the Settings screen, tap **More > Tethering**, then slide **Bluetooth tethering** to **ON**. You can now surf the Internet or do Internet-related activities on your ASUS Phone.

Travel and Maps

8

Weather

Get real-time weather updates straight from your ASUS Phone using the weather app. Using Weather, you can also check other weather details from around the world.

Launching the Weather app

From your Home screen, launch the Weather app using either of the following options:

- Tap  > **Weather**.
- From your ASUS Phone's home screen, tap the weather icon.

Weather home screen

Set up and get your current location's weather updates as well as other parts of the world. You can display the weather updates or daily weather forecast on the What's Next widget or app, and on the Calendar app.

NOTE: For more details, see [Getting the weather updates](#)

Clock

Customize the time zone settings of your ASUS Phone, set alarms, and use your ASUS Phone as a stop watch using the Clock app.

Launching Clock

Launch the Clock app using either of the following options:

- Tap  > **Clock**.
- From your ASUS Phone's home screen, tap the digital clock display.

World Clock

Tap  to access the world clock settings of your ASUS Phone.

Alarm clock

Tap  to access the alarm clock settings of your ASUS Phone.

Stopwatch

Tap  to use your ASUS Phone as a stopwatch.

Timer

You may set multiple timer options for your ASUS Phone. To do this, follow the steps below:

Setting the timer

1. Tap  to access the timer feature of your ASUS Phone.

2. Use the numeric keypad to input your target time then tap start to start the timer.

Knowing ZenLink

Stay connected with the ASUS-exclusive ZenLink for maximum productivity. With these ZenLink apps, you can connect with other devices to share and receive files.

Your ZenLink comprises of the following apps: Share Link, PC Link, and Remote Link.

NOTE: Some of these ZenLink apps may not be available in your ASUS Phone.

Share Link

Share and receive files, apps, or media contents with Android mobile devices using Share Link app (for ASUS mobile devices) or SHAREit app (for other mobile devices) via a Wi-Fi hotspot. With this app, you can send or receive files that are larger than 100 MB and lets you share or receive multiple files at the same time. Share Link app sends and receives files faster than using Bluetooth.

Sharing files

1. From your Home screen, tap **ZenLink > Share Link**.
2. Tap **Send file** then select from the options that appear on your screen.

3. Tap the files that you want to send then tap **Done**.
4. After your ASUS Phone detects the other devices, tap the device that you want to share your files with.

Receiving files

To receive files:

1. From your Home screen, tap  then tap **Share Link**.
2. Tap **Receive file** to receive the files from the sender.

PC Link

Use your computer to access and control your ASUS Phone and its apps via the PC Link. It allows you to control your ASUS Phone using your computer's keyboard and mouse.

NOTE: Before using PC Link, ensure to install PC Link to your computer. Go to <http://pclink.asus.com> to download and install PC Link.

Using PC Link

To use PC Link:

1. Connect your ASUS Phone to your computer using a USB cable.
2. In your ASUS Phone, a pop-up screen **Allow US debugging** appears. tap **OK** to allow connection between your computer and your ASUS Phone.
3. From your computer's desktop, launch **PC Link** then click **Connect**.
4. On the PC Link screen, click **OK**. When connected, you can access and control your device using the keyboard for typing and mouse for hand gestures.

Understanding the PC Link settings

Click this icon to rotate the mirrored ASUS Phone screen on your computer screen.

Click this icon to minimize or maximize the volume.

Click this icon to capture a screenshot.

Click this icon to wake your ASUS Phone or put it to sleep.

Click this icon to check for PC Link updates and assign a path for your screenshots.

Remote Link

Turn your ASUS Phone into a wireless input device and a presentation tool. Using this app, you can use your ASUS Phone as a touchpad, touchscreen panel, laser pointer for presentations, and Windows® Media Player controller while connected to your computer via bluetooth.

NOTES:

- Before using Remote Link, ensure to install Remote Link to your computer. Go to <http://remotelink.asus.com> to download Remote Link and install it to your computer.
- Ensure to pair your computer and your ASUS Phone first before using Remote Link.

Using Remote Link

To use Remote Link:

1. From your Home screen, tap **ZenLink** > **Remote Link**.
2. Tap **Search device** then select the device that you want to connect.

Remote Link touch pad

Tap  to activate ASUS Smart gesture and avigate your computer.

Remote Link presentation controller

Tap  to control the presentation slides on your computer.

Remote Link Windows® Media Player controller

Tap  to control the Windows® Media player.

Remote Link keyboard input

Tap  to use keyboard input. You can also use the microphone icon for voice input.

Special Zen Tools

Flashlight

You can turn your ASUS Phone to an instant flashlight by launching your Quick settings panel from any screen or any open app. From the Quick settings panel, simply tap on the Flashlight icon to activate its function.

Tap this to enable the flashlight.

Flashlight menu options

Tap this to enable or disable the flashlight mode.

Tap this to enable or disable the SOS mode.

Tap any of these icons to toggle between the flashlight's speed while blinking.

Tap this to turn on or turn off the light.

Boost

Boost function is to optimize device performance after a device is being used for a period of time. This function will close unused processes that are running in the background in order to retrieve more system memory.

Tap this to use Boost.

Calculator

One-swipe and a tap is all it takes to launch your Calculator. When you open the Quick settings panel, the Calculator icon is there visibly on top of the list. Tap it to get started with your computations.

Calculator screen

Quick memo

Quick memo is a note-taking tool that gives you the freedom to either scribble or type down important notes you need to remember. After creating notes, you can share them via Share Link and social media sites or turn them into a task inside Do It Later.

Creating a sticky note

You can turn Quick memo notes into a sticky note so you can view them wherever, on your ASUS Phone. To create a sticky note, just tap on the pin icon on the upper right corner of Quick memo after creating your note.

Sound Recorder

Record audio files using your ASUS Phone by enabling the Sound Recorder app.

Launching Sound Recorder

To launch Sound Recorder, tap  > **Sound Recorder**.

Pausing a recording

During a paused recording, you can choose to resume, delete, or save the recording.

Recording List

From the Recording List, you can play, rename, share, or delete a saved audio recording file.

To view your recording list, tap  from the Sound Recorder main screen.

Audio Wizard

AudioWizard allows you to customize the sound modes of your ASUS Phone for a clearer audio output that fits actual usage scenarios.

Using Audio Wizard

To use AudioWizard:

1. Tap **ASUS > Audio Wizard**.
2. In the AudioWizard window, tap the sound mode you want to activate.

When enabled, the ASUS Phone auto-switches to the best audio quality for the currently-running ASUS app

3. Tap **Advanced Effect** to adjust the advanced sound effects.

Splendid

ASUS Splendid allows you to easily adjust the display settings. It enriches the color of your screen with its preset screen color modes.

Using Splendid

To use Splendid:

1. From your Home screen tap **ASUS > Splendid**.
2. Select any of these screen color modes: **Balance**, **Bluelight Filter**, **Vivid**, and **Customized**.

Balance mode

This mode provides a balanced display of color on your ASUS Phone.

Bluelight Filter mode

This mode provides a mild paper-like display that reduces eye strain for a comfortable reading experience on your ASUS Phone.

Vivid mode

This mode provides a fine-tuned color preset that enriches the screen color of your ASUS Phone.

Customized mode

This mode allows you to adjust the screen display based on your preferred color temperature, hue, and saturation.

NOTE: You can also quickly set the Splendid screen mode from the Quick settings panel.

Power Saver

Fully maximize or extend the power of your ASUS Phone even when it is idle or while it stays connected to your network. Smartly customize the power settings for your frequent activities such as reading emails or watching videos.

Setting up Power Saver

Multiple battery modes optimize the power of your ASUS Phone for different usage scenarios.

1. Tap **ASUS > Power Saver** to launch Power Saver.

2. Tap **Battery modes** to select any of these modes:
 - **Performance mode:** Maximizes your ASUS Phone's performance with no battery savings
 - **Balance mode:** Provides a balance between performance and power of your ASUS Phone.
 - **Smart-saving mode:** Automatically disconnects the network connection when the battery is running low or when your ASUS Phone is asleep or idle to extend the battery life.
 - **Ultra-saving mode:** Disconnects the network connection when your ASUS Phone is idle to fully maximize its battery life.
3. Tap **Auto-switch to Ultra-saving mode** to set up a battery level to trigger Ultra-saving mode.
4. Tap **Auto-switch mode** to schedule auto-switching into a specific battery mode.

There's more to your Zen

ASUS Cover

Replace the rear cover of your ASUS Phone with this ASUS-exclusive accessory and check important information without opening the cover.

NOTE: This accessory may be bundled with your ASUS Phone or purchased separately.

Installing the ASUS Cover

To install the ASUS Cover:

1. Turn off your ASUS Phone.
2. Pry the cover loose from the groove on the bottom-right corner, then pull the rear cover off.

CAUTION! Be careful when you pry open the cover.

3. Replace the rear cover with your ASUS Cover.

Configuring the ASUS Cover settings

To configure the ASUS Cover settings:

1. Tap  > **Settings** > **ASUS Cover**.
2. Tick the box beside **Enable ASUS Cover**.

Keeping your device up-to-date

Keep your ASUS Phone in the loop of Android system updates and upgraded apps and features.

Updating your system

1. Tap  then tap **Settings**.
2. On the Settings screen, slide down to display other items then tap **About**.
3. Tap **System update** then tap **Check Update**.

NOTE: You can preview the last time your ASUS Phone's system was updated at the Last update check: of the System update window.

Storage

You can store data, apps, or files on your ASUS Phone (internal storage), on an external storage, or on an online storage. You need an internet connection to transfer or download your files on an online storage. Use the bundled USB cable to copy files to or from the computer to your ASUS Phone.

Backup and reset

Back up data, Wi-Fi passwords, and other settings to Google servers using your ASUS Phone.

1. Tap  then tap **Settings > Backup & reset**.
2. From the Backup & reset window, you can:
 - **Backup my data:** This feature backs up your data, Wi-Fi passwords, and other settings to Google servers when enabled.
 - **Backup account:** Allows you to specify the account you to be associated when you save your backup.
 - **Automatic restore:** This feature facilitates restoration of backed up settings and data when you reinstall an app.
 - **Factory data reset:** Erases all data on phone.

Securing your ASUS Phone

Use the security features of your ASUS Phone to prevent unauthorized calls or access of information.

Unlocking your screen

When the screen is locked, you can open it with the security unlocking options that the ASUS Phone offers you.

1. Tap  then tap **Settings > Lock screen**.
2. Tap **Screen lock** then select an option to unlock your ASUS Phone.

NOTES:

- Refer to section **Unlock screen options** for more information.
 - To deactivate the unlock screen option that you set, tap **None** on Choose screen lock screen.
-

Unlock screen options

Choose from these options to lock your ASUS Phone.

Swipe

Swipe up to unlock your ASUS Phone.

PIN

Key in at least four numbers to set a PIN.

IMPORTANT! Ensure to remember the PIN that you created to unlock your device.

Pattern

Slide your finger on the dots and create a pattern.

IMPORTANT! You can create a pattern with a minimum of four dots. Ensure to remember the pattern that you created to unlock your device.

Password

Key in at least four characters to create a password.

IMPORTANT! Ensure to remember the password that you created to unlock your device.

Configuring the other screen security features

Aside from the mode of screen lock, you can also do the following on the Screen security window:

- **Quick Access:** Slide the Quick Access switch to **ON** to launch apps on the lock screen.
- **Instant camera:** Slide the Instant camera switch to **ON** to launch the Camera app even if your ASUS Phone is in idle mode by pressing the volume button twice.
- **Owner info:** Tap this to edit and key in the information that you want to appear even when your screen is locked.

Setting your ASUS Phone identity

Know your ASUS Phone's identity such as serial number, IMEI (International Mobile Equipment Identity) number, or model number.

This is important, as when you may lose your ASUS Phone, you can contact your mobile carrier and provide the information to blacklist the unauthorized use of your ASUS Phone.

To display your ASUS Phone's identity:

1. Tap **All Apps** then tap **Settings**.
2. On the Settings screen, slide down to display other items then tap **About**. The About screen displays the status, legal information, model number, operating system version, hardware, and software information of your ASUS Phone.
3. To see the serial number, SIM contact number, and IMEI of your ASUS Phone, tap **Status**.

Appendix

Notices

EC Declaration of Conformity

This product is compliant with the regulations of the R&TTE Directive 1999/5/EC. The Declaration of Conformity can be downloaded from <http://www.asus.com/support>

Prevention of Hearing Loss

To prevent possible hearing damage, do not listen at high volume levels for long periods.

À pleine puissance, l'écoute prolongée du baladeur peut endommager l'oreille de l'utilisateur.

For France, headphones/earphones for this device are compliant with the sound pressure level requirement laid down in the applicable EN50332-1:2013 and/or EN50332-2:2013 standard required by French Article L.5232-1.

CE Mark Warning

CE marking for devices with wireless LAN/ Bluetooth

This equipment complies with the requirements of Directive 1999/5/EC of the European Parliament and Commission from 9 March, 1999 governing Radio and Telecommunications Equipment and mutual recognition of conformity.

The highest CE SAR values for this device are as follows:

- 0.882 W/Kg (Head)
- 0.233 W/Kg (Body)

RF Exposure information (SAR) - CE

This device meets the EU requirements (1999/519/EC) on the limitation of exposure of the general public to electromagnetic fields by way of health protection.

For body-worn operation, this device has been tested and meets the ICNIRP guidelines and the European Standard EN 62209-2, for use with dedicated accessories. SAR is measured with this device at a separation of 1.5 cm to the body, while transmitting at the highest certified output power level in all frequency bands of this device. Use of other accessories which contain metals may not ensure compliance with ICNIRP exposure guidelines.

Power Safety Requirement

Products with electrical current ratings up to 6A and weighing more than 3Kg must use approved power cords greater than or equal to: H05VV-F, 3G, 0.75mm² or H05VV-F, 2G, 0.75mm².

ASUS Recycling/Takeback Services

ASUS recycling and takeback programs come from our commitment to the highest standards for protecting our environment. We believe in providing solutions for you to be able to responsibly recycle our products, batteries, other components as well as the packaging materials. Please go to <http://csr.asus.com/english/Takeback.htm> for detailed recycling information in different regions.

Coating notice

IMPORTANT! To provide electrical insulation and maintain electrical safety, a coating is applied to insulate the device except on the areas where the I/O ports are located.

Green ASUS notice

ASUS is devoted to creating environment-friendly products and packaging to safeguard consumers' health while minimizing the impact on the environment. The reduction of the number of the manual pages complies with the reduction of carbon emission.

For the detailed user manual and related information, refer to the user manual included in the ASUS Tablet or visit the ASUS Support Site at <http://support.asus.com/>.
